

# JPW EINSTEIN ANALYTICS SOLUTIONS

## MAKE SMARTER DECISIONS WITH AI-POWERED PREDICTIONS AND RECOMMENDATIONS

### WHAT CAN **EINSTEIN** DO FOR YOU?

Einstein Analytics is a powerful platform for building analytics apps for any business need, helping every user instantly understand all your company's data, spot patterns, identify trends, share insights, and take action on any device.

JPW works with you to analyze your current system, discover your needs, and build comprehensive dashboard solutions that provide insights today and predictive and prescriptive models for tomorrow on topics such as:

- Revenue Targets
- Brand Value
- Production and Product Delivery
- Competitor Analysis
- Team Performance
- Employee Satisfaction & Talent Retention
- Customer Satisfaction Scores (CSAT)
- And many more!

### WHY CHOOSE **JPW**?

As both pioneers and leaders of Salesforce training and adoption solutions, JPW brings focused discipline to every analytic solution. JPW consultants deliver business insights, quality training, and coaching solutions to drive maximum adoption and utilization of Salesforce.

- Experienced consultants approach analytic design and development from a business focused perspective, not a developers perspective. We focus on understanding and guiding the enterprise to quality analytic solutions.
- JPW designs and builds dashboard solutions that align leadership, managers and end users to common KPIs in order to drive business results.
- JPW consulting focuses on actionable analytic solutions that help transform business, not just dashboards with pretty charts.
