Chargent Gateways Connector for Salesforce Billing

Chargent's new connector enables customer success faster with Salesforce Billing, since new customers can maintain negotiated processing rates plus their finance and reconciliation processes with their existing payment gateway.

In addition, the new Chargent Gateways Connector offers payments capabilities to Salesforce Billing customers in Australia for the first time, via Chargent's 6 integrations with Australian credit card and direct debit providers.

With more than 10 years of operating experience and over 300 AppExchange customer reviews, Chargent's software and payments expertise is now available to customers via the AppExchange connector which can be implemented in minutes.

"Salesforce Billing customers no longer have to decide between a great Billing app and their chosen payment provider. With Chargent's new connector, now they can have both." said Micaiah Filkins, Co-Founder and President, AppFrontier.
