

StoryPorts Proposal

Pixel perfect emails, templates and content widgets minus the grunt work.

What We've Heard

- ✓ Your business sees email operations as a critical component for engaging customers and creating revenue.
- ✓ You need an agile way to manage and scale on-brand email content and templates without the need for technical support or specialized design skills.
- ✓ The ability to scale email content and relevant messaging will help the business create new lines of revenue and increase ROI for email efforts.
- ✓ The business has a unique and powerful brand. It is important to maintain that brand with every email communication and deliver the best possible customer experience.
