

Data Migration and Consolidation Solutions

Are you in control of your data?

Data harnessed the right way can be one of the most powerful decision-making tools in your business. Your data might need to be mapped, moved, cleaned, consolidated and enhanced and, with nearly three decades' experience, DCA can expertly assist your organisation get control of your data.

WHAT WE DO

Data Migration

We move data from one or more sources to another application in a smooth and seamless manner. We implement data migration using the DCA Service Process so that your business can keep running without unnecessary disruption.

Data Consolidation

In order to improve the quality of your data it may be necessary to consolidate and combine data from various legacy systems. We can combine databases, cleanse, enhance and validate data, de-dupe and cleanse records, and link records to provide a single-customer view.

OUR EXPERIENCE MAKES THE DIFFERENCE

As leaders in this field, we have experience working on migration and consolidation projects of all sizes and scope. We frequently work with the following systems:

- CRM (Salesforce, SAP, Oracle, Microsoft, Teradata, SugarCRM and others)
- Marketing Databases
- POS systems
- Loyalty Databases
- Customer Databases
- ERP (Enterprise Resource Planning)
- Accounting systems

In order to complete the migration, DCA uses our own proprietary data management software called Nirvana. With extensive extract, transfer and load (ETL) capabilities and custom algorithms our software and data bureau both ensure the migrated data is fully compliant with project requirements and the target application.

How we work

Our proven method of delivery ensures your data migration and consolidation project will run smoothly and seamlessly.

DCA Service Process

EVALUATE

- We work with you to understand your business objectives.
- We then perform a full systems and business process analysis.

PREPARE FOR THE FUTURE

- Make sure future plans will meet your business objectives.
- Define business rules for target application.
- Map all data.
- Check data output requirements.
- Perform full data-quality services (cleanse, de-duplicate, suppress, validate and apply any additional spends).
- Consolidate data using our industry-leading data bureau.

IMPLEMENT

- Using our proprietary data management software Nirvana we seamlessly migrate your data from multiple sources to the target application.

VALIDATE AND REVIEW

- Upon completion of migration, we validate all business rules in the target application and data integrity to make sure we've hit the mark.
- We also continue data-quality maintenance beyond the data migration process.

How we can help you

Your organisation might be expanding, changing systems, consolidating business units, wanting a single view of customers, moving, merging, being acquired, migrating to the cloud or upgrading systems. Any change in business systems can lead to a data challenge, but also a data opportunity.

No matter how big or small, we can help you to make the most of your data.

THE DCA DIFFERENCE

With nearly three decades' experience, DCA are leaders in data migration and consolidation. Our business is built on having the best people, systems and solutions at hand for our clients. We offer:

- Strategies that reduce risk of data loss or business disruption.
- Simplified processes that reduce the burden on your team.
- Cost efficient solutions.
- Quick and powerful implementation via our proprietary Nirvana software.
- Proven track record in delivering on time and on budget.
- Guaranteed high-quality data transformation.
