

Image Slider User Guide

Welcome to Community Image Slider Guide!

Follow these steps to start using Image Slider in your Salesforce Community.

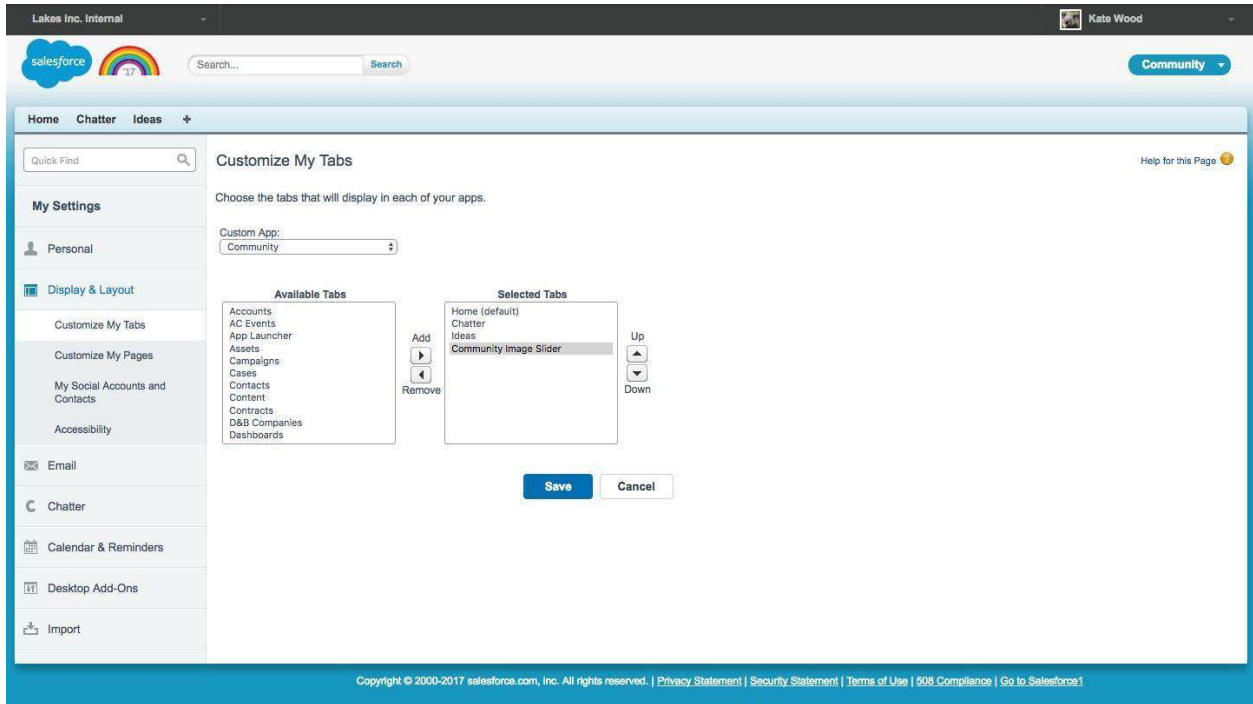

1. Install the Image Slider Component from the AppExchange
<https://appexchange.salesforce.com/appxListingDetail?listingId=a0N3A00000EOLfBUAX>

Click Install and complete the installation process.

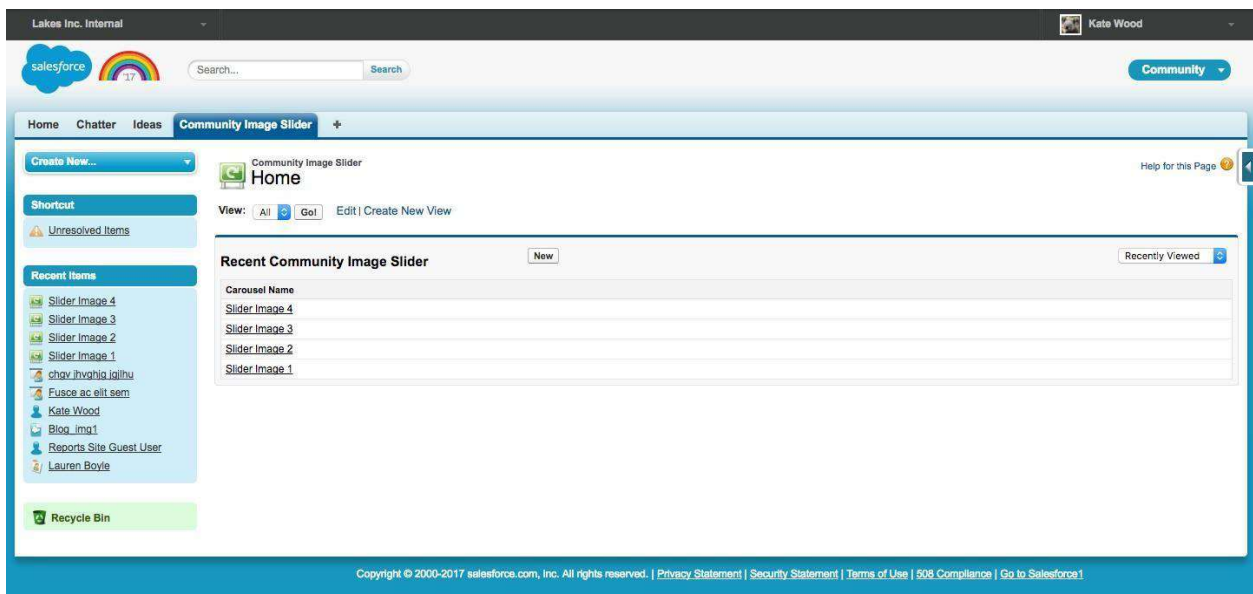

App Name	Publisher	Version Name	Version Number
Image Slider for Community	Advanced Communities	Feb 22	1.1
Description Fixes for issues from the Security Review report			
Additional Details View Components			

2. When the package is successfully installed, go to Setup, click “+” at the Navigation bar and click the “Customize my Tabs” button on the right. Find “Community ImageSlider” in the list of Available Tabs and move it to the list of Selected Tabs. Click Save.

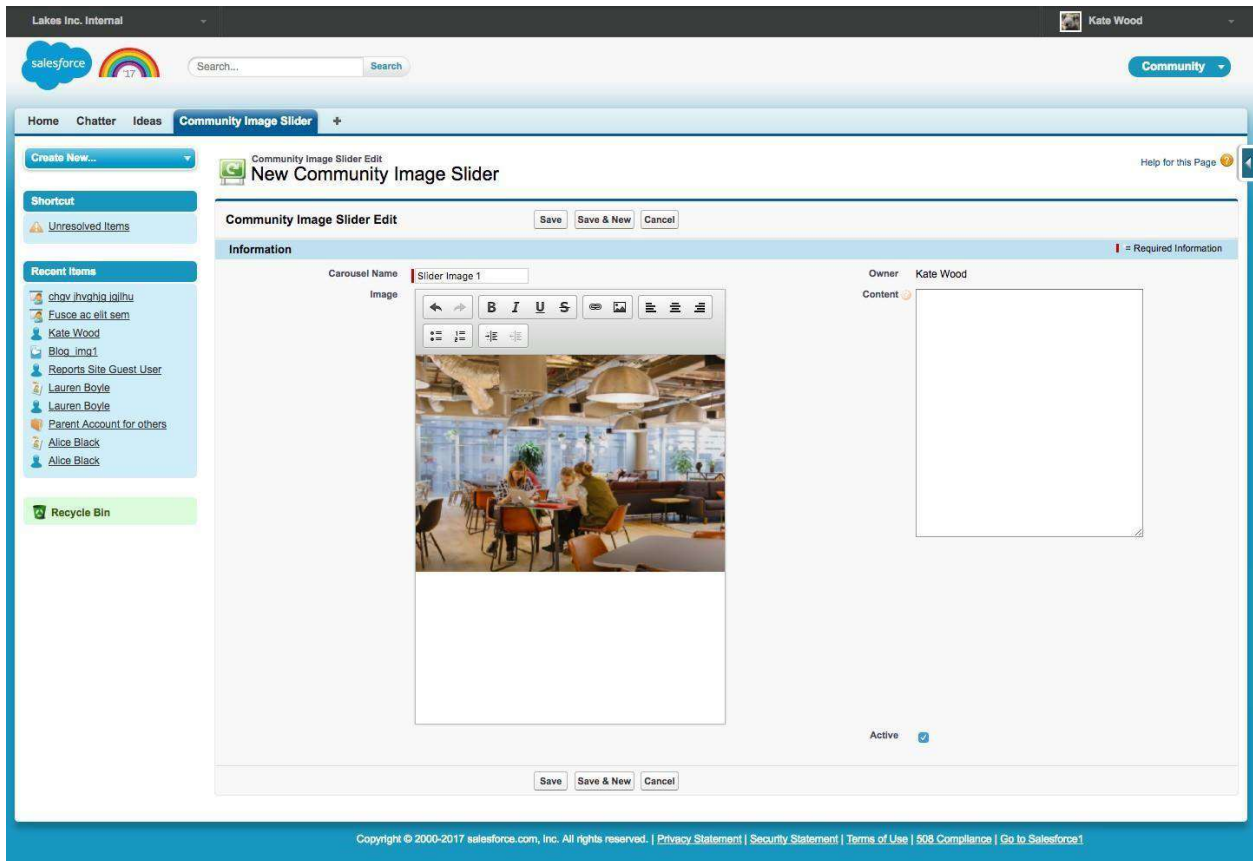

3. Go to the Community Image Slider Tab. Click the “New” button to upload new images to the slider.

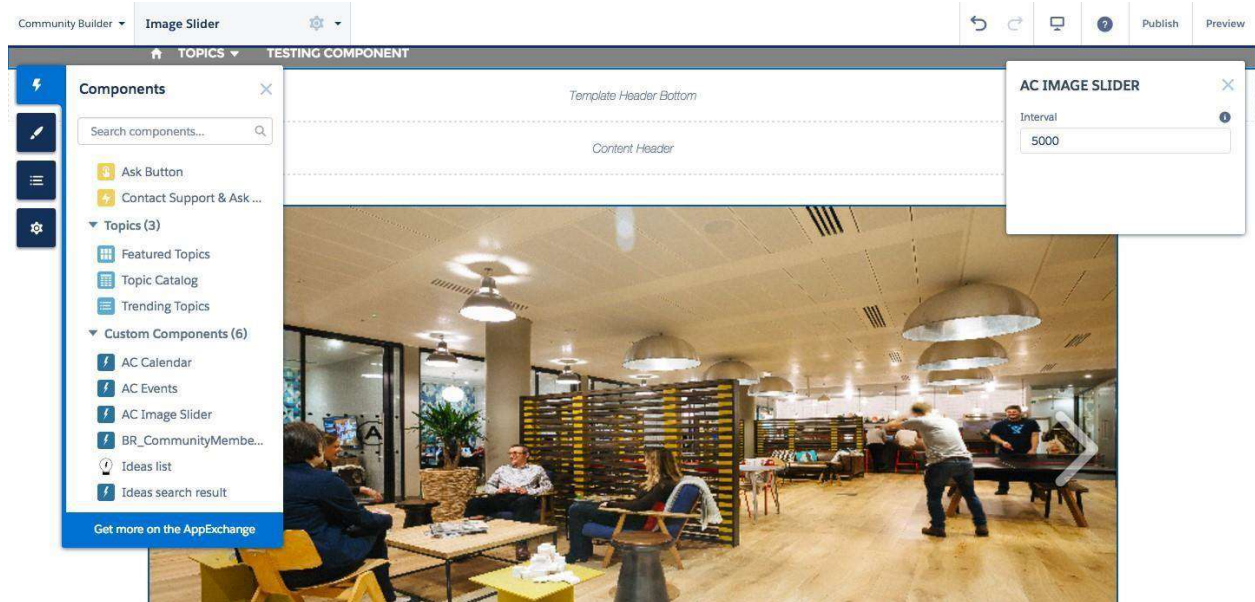

4. Provide a name for your file (“Name”).

Upload your image in the Rich Text Editor area. You can also add some HTML to the Content area. Click Save & New and add some more images! The maximum image size is 1 MB. Png, gif or jpeg files only.

5. Now go to the Community Builder. Open the page where you plan to display the image slider. Find AC ImageSlider in the list of Lightning Components. Drag and drop it onto the page. In AC ImageSlider Properties set the time interval for images. Click Publish to save your changes.

Enjoy your images and make your community pages bright and eye-catching. Thank you for using our AC ImageSlider component!

Guest User Access

To make Image Slider available for community guests, configure the following object and field-level permissions on the guest user profile:

Community Image Slider	Read
Content	Read
Image	Read
