

Using a combination of data from your company's website, mobile applications, CRM, EMR, and the **CopperHill AIR HLS Provider Data**, you can build a strategy that focuses your marketing and sales efforts where they can be most effective.

- Segmentation & Targeting
- Territory Management & Planning
- Geographical Analysis
- Referral Analytics
- Sales & Marketing Analysis with Attribution

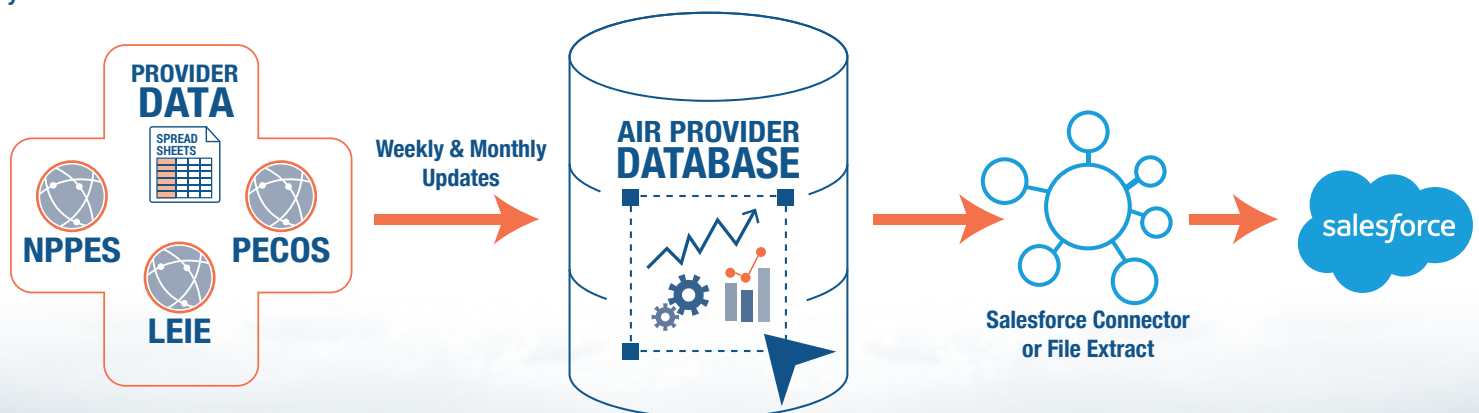

CopperHill AIR HLS Provider Data with **AIR HLS Connect** provide a seamless solution to integration provider data into your overall Salesforce Sales and Marketing solution. We provide a complete source of information that is updated weekly and monthly to give you the most current information available.

CopperHill is a provider of data and intelligence on physicians, hospitals, clinics, and other healthcare providers. Our Cloud-based subscription service includes details on over:

- | | | |
|----------------------------|-------------------------------------|--------------------------|
| + 190,000 Physician Groups | + 11,000 Ambulatory Surgery Centers | + 11,000 Imaging Centers |
| + 13,000 Hospital | + 1.5 million Physicians | + 46,000 Long Term Care |
| + 120,000 Clinics | | |

CopperHill AIR provides a turnkey solution to integrate Provider Data into your Salesforce using our pre-built connectors. Provider Data is then synced on a weekly or monthly basis to maintain the most current data for your needs
