

THE VISION

There's an opportunity unlike ever before...

We understand how to leverage technology to assist in growing your business. You are the experts of your business. Help us understand your business, so we can build the systems that allow you to focus on growing it.

In these times of rapid innovation, being a small business can actually be a benefit. But only if you have access to a partner like Oppty.

HOW WE WORK TOGETHER

1. Analysis

- Evaluate current softwares & processes
- Establish a concise vision

2. Prioritize

- What will have the best ROI the fastest?
- What are our goals for the next 12 months?

3. Identify

- Weekly meetings with stakeholders
- Determine key employees for input at each level

4. Implement

- We get to work on backend configuration
- Roll out the upgrades we've decided on together

5. Optimize

- Evaluation & feedback of features
- Fine tune for optimal efficiency

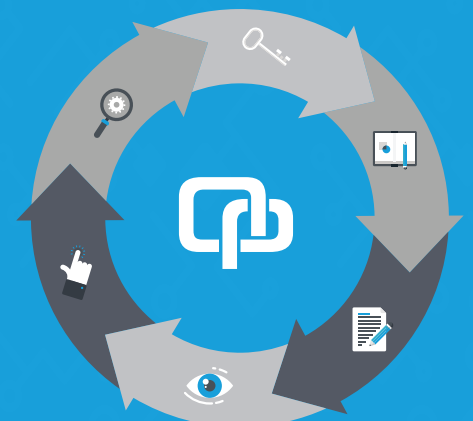

6. Enable

- Show employees a new way to think about software
- Enable them to think critically about their systems & how we can continue to optimize for growth
