COVID-19 RESPONSE KIT

Lifeguard Solutions provides integrated tools specifically targeted to help organizations combat and mitigate the effect of the COVID-19 Virus

***RAPIDLY INSTALLED AND READY FOR YOUR ORGANIZATION
TO USE WITHIN A WEEK***

RISK MANAGEMENT AND CONTROLS

Tools and workflow to understand the risk: proactively measure, manage and control risk and contributing causal factors. Improve your response by recording and communicating methods to reduce risk and measure the results of initiatives.

FIELD LEVEL HAZARD ASSESSMENT

Understand risk in different environments and proactively determine which controls would be most effective in different locations and/or circumstances. Communicate results across the company.

INJURY/ILLNESS TRACKING

Collect the information you need to track and report metrics in real time to improve decision making capabilities. Seamlessly provide information across your organization and easily report to your regulatory agency.

RETURN TO WORK AUTHORIZATION

Manage the information from employees and health care providers to approve employees returning to work if they have been ill, quarantined or self-isolated.

EMERGENCY RESPONSE

Set up Action Plans for how your firm will respond to a crisis before it occurs and manage a crisis as it is on-going. Set up and assign emergency response teams to your locations

AUDIT MANAGEMENT

Manage the full Audit Management lifecycle: Auditors/Reviewers use checklists and references to complete their work and produce the Report with the click of a button

CORRECTIVE/PREVENTATIVE ACTION MANAGEMENT (CAPA)

Ensure oversight by assigning the right people to the right tasks in response to any record in the system. Maintain visibility on task completion compliance

KNOW WHAT YOUR RISKS ARE
KNOW HOW THEY ARE BEING MANAGED
