CONNECTED THINKING

Imagine a platform that lets you manage sales, boost productivity and develop deeper connections directly with your customers?

That's exactly what you get with Six's Salesforce solutions. We work with you to reengineer Salesforce so it becomes an even more powerful tool for you to gain insight and drive sales and engagement.

We'll supercharge the sales and customer experience

Connect marketing, nurture leads and get to the hottest leads along with reducing time and effort required.

Give your sales and service team the power to identify sales potential proactively with a 360-degree view of customer – calls and meetings, opportunities raised, and support engagement.

GETTING TO THE RIGHT CUSTOMERS

360-DEGREE CUSTOMER VIEW

ENHANCED POST-DELIVERY CUSTOMER EXPERIENCE

BETTER SALES REPORTING

MOBILE ACCESS FOR OUTSIDE SALES TEAM

Let your sales team log calls and meetings with a single click and access advanced features like smart reporting and approval workflows wherever they are.

Keep track of any warranty, returns, repair, or service issues, and self-service FAQs.

Move away from monthly excel spreadsheets by integrating your ERP system data with your CRM system. With lead management, revenue line items, and quote management combined, your sales managers get the intelligent insights they need to drive more informed decision-making.
