Employee Document Management

Paradigm shift in sharing and managing HR documents

Region: United States (AMER)

Headquarters: Cincinnati, OH,

United States

sdriveapp.com

Overview

Records Management for HR organizations has never been easier. With CyanGate's Employee Records Management on Salesforce, HR departments can distribute digital documents including pay statements, benefits documents and more. Leveraging S-Drive, which is the top document management platform on AppExchange, HR department of any size to put an Employee Portal with records management in place in no time.

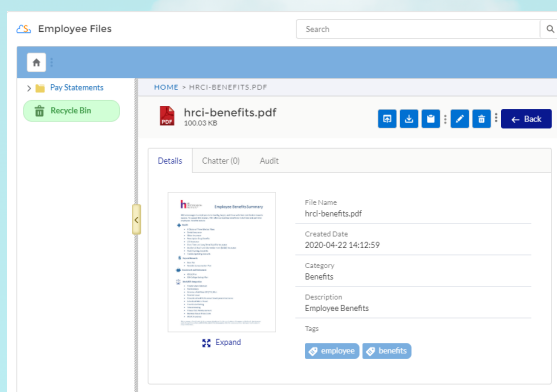

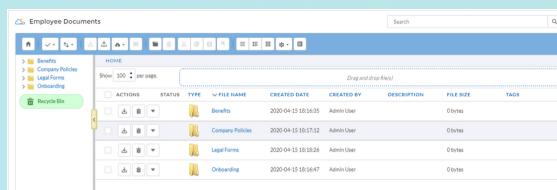

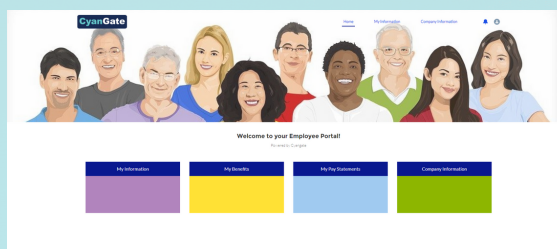

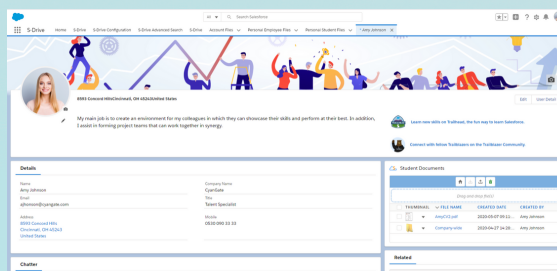

Value Proposition

Employee Records Management solution includes

- Ability to enable retention policies,
- Security to allow only authorized users to view/access employee-related information,
- Powerful audit logging to keep record of every action,
- Integration to help accomplish HRIS/ HCM and Payroll systems.

Key Capabilities

- Reduce Employee Communities go-live from 8-12 weeks to 8-12 days!
- Regardless of the size of the file, easily upload/download and manage content.
- Empower employees to access everything they need without going through HR.
- Give your employees easy access to all HR-related documents through Salesforce Communities.
- Share documents with employees on an individual or company-wide level.
