Eventbrite Fusion automates your event management efforts and helps you track the success of your Eventbrite events in Salesforce.

It's automated so much of our Eventbrite + Salesforce event management issues -- a real time saver. It has cut down our data entry needs quite a bit. Big fan of this integration! 100% recommend.
- Amy, Greenbelt Alliance

We use the Eventbrite integration from Predictive Response, and love it. We switched our event management (for both free and paid events there, and staff find it much better.
