

Release Notes: Eligibility Checker (v4.3)

New Data/Functionality

1. Ability to auto populate the Secondary and Tertiary Member Id on the Verify Medical Insurance Form.
2. Storing New Information on Member Plan:
 - Insurance Type (HMO, PPO, etc.)
 - Death date
 - Plan Start Date
 - Plan End Date
 - Additional Plan Information in case when Payer sends Unknown Coverage.
 - Transaction ID
 - Plan/Product Name (Example: HAS Aetna Choice POS II)
 - Payer Assigned Provider ID
 - Payer Assigned Provider PIN
3. Health Benefit Plan Coverage Link has been updated to Green color on the Service Type tab in the Benefit card.
4. Refresh Functionality on the Member Plan and on the Insurance Benefit card. This will not create a new Member Plan but update the existing one.

Issue Fix:

5. Fixed the Birth date. In case the Member Plan is not Completed, the Birth date was getting stored as one day less.
6. Few Payers for e.g. BCBS Illinois was expecting Provider Type while making a request for Eligibility, so modified the package to send provider type information as well. This information is stored in Custom Setting and expect below 2 values which can be set depending upon the client.
 - AT – Professional
 - H – Institutional

Release Notes: Eligibility Checker (v4.5)

New Data/Functionality

1. Storing New Information on Member Plan:
 - Transaction ID
 - Plan/Product Name (Example: HAS Aetna Choice POS II)
 - Payer Assigned Provider ID
 - Payer Assigned Provider PIN
2. Added **Cost Containment** Section on the Service Type Tab along with Amounts and Limitations.
