

Salesforce Healthcheck Assessment for SI's

For growing Salesforce SI's who need to ensure that their Salesforce Org is optimized for performance and scale.

Brillio's Healthcheck is a tool enabled product assessment solution to reduce the technical debt and increase Developers and Admins productivity. The tool analyses your Salesforce org and helps you identify the problematic areas.

What it can do for you

- Accelerated innovations with improved developer team productivity, faster release cycles and improved impact analysis of changes
- Optimized cost leading to enhanced admin productivity along with improved debugging & issue resolution
- ROI maximisation due to optimum usage of licenses procured and efficient use of Salesforce OOO features
- Increased User Adoption through optimized workflows and improved Performance

How it works

- Discovery (1 week)
 - Execute Brillio CustomerEngage Force Clinic Tool
 - Two-hour Product team and Business workshop to go over business strategy, processes, pain points and anticipated changes
- Analysis & Iteration (2 weeks)
 - Walk through of findings and recommendations
- Recommendations (1 Week)
 - Recommendations, ROI analysis and joint implementation plan

Brillio CustomerEngage Force Clinic analyzes the product on key dimensions:

- | | |
|----------------------|---------------------------|
| 1. Code quality | 2. Performance |
| 3. Configuration | 4. Data Quality |
| 5. Integration | 6. Data Model Structure |
| 7. Security | 8. Modern User Experience |
| 9. Release Processes | 10. License Optimization |

Why Brillio?

- Broader coverage of dimensions
- Depth and prescriptive nature of recommendations
- Specifically targeted for SI's

ADDITIONAL INFORMATION

GOAL

Reduce operating cost and increase productivity of developers and admins

INTENDED USER

You want to improve your org's performance, reduce technical debt, improve admins & developer productivity

PREREQUISITES

- Executive Sponsor who will confirm objectives and champion this initiative
- Availability of team members for interviews and discussions
- Access to the Salesforce org
- Access to the customer reported issues

WHY NOW?

With increase in maintenance cost and freeze in budget, enterprises need to adopt "pay as you go" model for addressing issues in Salesforce and not part of general sprint. This tool will help monitor the org proactively, and reduce the technical debt & maintenance cost
