

Work Information Center

Free Lightning Bolt for Salesforce Work.com

Manage and deliver targeted and timely information

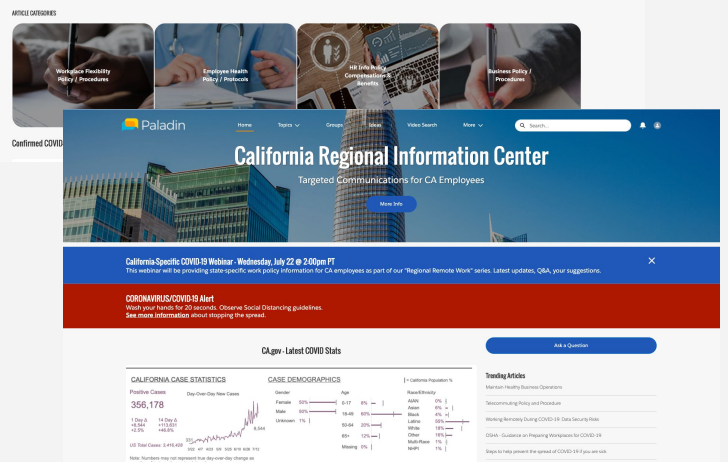

COVID-19 has changed the workplace. Top of mind for employees and employers is how to communicate and provide key information to ensure a safe and productive work environment.

Single source for information

Employers are facing a new work environment where employees, and business operations are asking questions about infectious disease and changing processes, and looking for a single, omni-channel environment for answers.

How it works with Work.com

Paladin Group's Work Information Center solution is a pre-built Lightning Bolt, accelerating the value and impact of the Work.com Rapid Crisis Response solution.

Set up in a few short weeks

The Work Information Center Lightning Bolt is free. In a few short weeks clients can see immediate value and impact of timely and targeted communication and easy to access information.

Paladin services will support you with a streamlined consulting program including: community setup, knowledge article loading and categorizing, branding, training and more.

Take control of the cost and risk of misinformation with Paladin
