

Customer Stories

Unparalleled visibility

Finally a tool that allows the sync of LinkedIn conversations. I can share all my relevant sales conversations with my team colleagues in the CRM or Leadjet's on-profile contact notes. Nothing gets lost in the process!

Extremely practical for CRM enrichment

After consulting different solutions on the market, I chose Leadjet as my LinkedIn automation tool without hesitation. Extremely practical for enriching my CRM and managing my LinkedIn leads – the solution is really promising. Great job, I can't wait to see future developments of the product!

Increase in workflow efficiency

Our sales reps gain 15% more time per day using Leadjet. It displays the main contact info directly on the profile and syncs automatically with our CRM. Our reps can track status, ownership and history of the lead without ever leaving LinkedIn. No more copy & paste or switching between platforms.
