

GET REAL TIME ALERTS AND NEVER MISS A BEAT THE SUPERIOR FILE NOTIFICATION SYSTEM

- Global notification teams allow all users to be notified through their chosen method: chatter, task, or email.
- With the option to add to your Salesforce® home page, everything you need is right where you need it.
- Admins can set up notification teams on a configured solution with custom notifications - set it and forget it!
- Instantly receive notifications when a file is uploaded or updated
- Clear and easy to follow user-interface for all users.
- Notifications are customizable so you are in control of what people see.
- Maintain consistent contact sharing between team members.
