

# The digital home for connections and collaboration

Go beyond traditional online communities with Nimble Communities.

Nimble Communities unifies the world's best community platform, Salesforce Community Cloud with forward-thinking association-focused benefits to deliver the most powerful member experience. Connecting your members to the digital community they need throughout their member journey to learn, share ideas and become loyal advocates.

## Nimble Communities excites members and achieves phenomenal results.

### Attract new members

and keep current members engaged by directly connecting them with industry knowledge, experts and peers through a fresh and mobile community experience

### Drive stronger connections

and increase member loyalty by bringing your super members into daily contact with your value-seeking members.

### Shape individual member

journeys and keep members coming back with personalized content feeds based on their interest and activities.

### Leverage an additional

member-generated touchpoint to highlight your association's value, reach more members and streamline your efforts.

## Modern member experience that exceeds member expectations

Nimble Communities creates a more engaging experience for members with personalized content, seamless transitions between other member touchpoints, and access from anywhere with a mobile-first interface, all made possible with Nimble AMS and Salesforce Community Cloud. While your members are finding new ways to connect, you're able to gather new and valuable strategic insights that you can bring back into your AMS.

It's time to provide your members the benefits they want with the modern member experience they expect and deserve.

Learn more about the industry's most powerful online community to increase member engagement, retention and loyalty, Nimble Communities.
