

Testimonials

“Mani has been wonderful to work with on all things related to Salesforce. She is not only adept at managing your Salesforce environment but she is also exceptional about training you how to do things for yourself. She helped my company with many aspects of Salesforce, including page layouts, Marketo integration and field mapping, dashboards and more. Mani is very good at not just doing what is requested but asking questions to ensure that the solution she provides truly meets the needs of the organization. I would recommend her to anyone and look forward to working with her again in the future!”
