

Click & Collect Module - Enhancements for India

Current Situation -

1. C&C today is another carrier on Webstore. It is not configured through the module
2. In the current C&C module, Lead Time is not configurable for each store
3. There is no option to define store catchment in the current module. All the
4. Store RLs blind on the number of C&C orders to be dispatched for the store
5. Store are not aware of the number of C&C orders to be received at the store
6. Manual update of orders after reception

Process -

Required Solution -

Enhancements on the Existing Module

1. Lead time configuration for each store

Option to configure a different lead Time for each Store -

- If the complete order is available in store, propose a specific lead time based on fulfillment from store
- If part of the order or complete order is unavailable, propose lead time for fulfillment from warehouse (configurable for each store)

2. Order to be pushed to the right fulfillment centre

- Orders which are completely available in store should not be pushed to BO. These orders need to be in a specific status that is not pushed to BO
- Orders which are not available in store partially or completely to be pushed to the warehouse. These orders to have a different status & to be pushed to BO

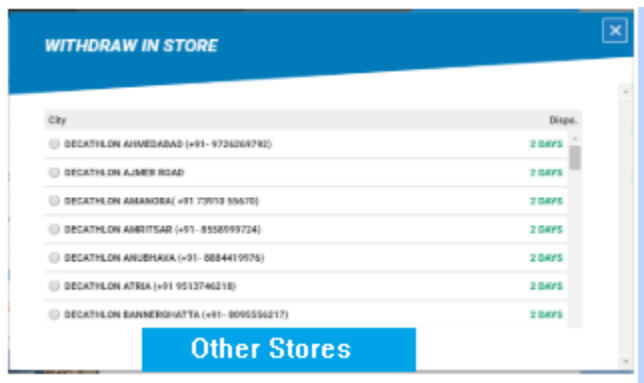

3. Notification for store team when they receive an order

- A field to configure an email ID for each store on which a notification email should be sent whenever a C&C order to be fulfilled from store is placed

4. Store list to be shown as per store catchment

- Only the stores for which the delivery pincode is in the catchment should be shown on Click of "Select Store"
- All the stores in the catchment, to be in order of ascending lead time
- With a " All Other Stores" button at the bottom, on click of which all the stores to be shown
