

# Salesvue

The world's first Salesforce® native sales engagement platform that provides the playbook for your entire sales team.

**Engage contacts more consistently.** Salesvue provides the structure for consistent outreach, whether it be outbound prospecting, quarterly customer touchpoints, or anything in between.

**Keep it simple with one user interface.** Salesvue lives 100% inside Salesforce, so sellers have one interface for tasks, appointments, opportunities, and more. No more guessing what to do or when.

**Get the most out of Salesforce.**

With all Salesforce data and the playbook for their day in one place, reps can cut down on administrative task time and get into more conversations.

**Improve your entire team's performance.** Create best-practice cadences that take advantage of the best sales behaviors in your organization. Reps save critical time with repeatable cadences, automated and bulk email options, email templates, and more.

**Manage the sales cycle from end to end.** Salesvue cadences provide structure for outreach at every step in the sales cycle, from automated marketing emails and prospecting calls to opportunity management and renewals.

### **Gain real-time insights.**

Salesforce and Salesvue data work together in one platform to provide insights about follow-up timeliness, consistency of engagement, key drivers of success, and conversion rates across the entire sales cycle.

### **Give accurate feedback.**

With real-time data, managers get insights for precise coaching and strategy adjustments to help turn B-performers into A-performers.
