

**QPROPOSAL**

Streamline your RFP/RFI process.

Powered by **CLOUDQ**

**Preparing an RFP or RFI, and keeping up with all the responses, feels like this.**

**But QProposal solves that by  
bringing all departments together.**

Creating something new  
has never been this much  
fun. Hassle-free requests are  
easily compiled by many  
of your key departments at  
once.

No more getting buried under  
paperwork!

get

connected

That moment you log into your e-mail and your head hits the desk when you see another RFP or RFI that needs to be created will become a thing of the past with **QProposal by CloudQ**. Your admin decides what informational pages are needed, chooses them from a list, applies your company's branding, and sends everything off to management for approval.

**Yes, it's that easy.**

Once it's returned with the stamp of approval, your admin will assign departments, and your various teams can get to work right away.

**And while we all love being with  
our co-workers,  
you don't need to be in the same  
room with them **or** send a bunch  
of emails back and forth!**

Once everyone has completed their sections, your RFP or RFI can be published. With the click of a button, you get a complete document you can share with the world so you can gather responses.

All responses to your RFP/RFI can also be kept at hand and decided upon in a central location. It's easier than ever to see what each company has proposed and vet each response for completion and clarity.

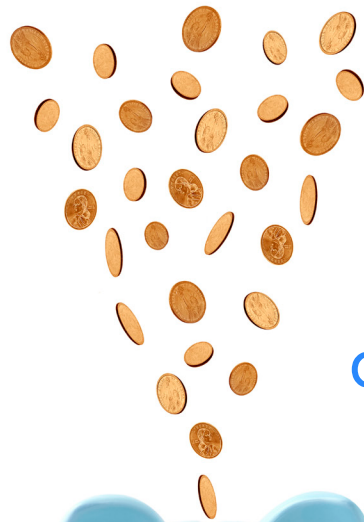

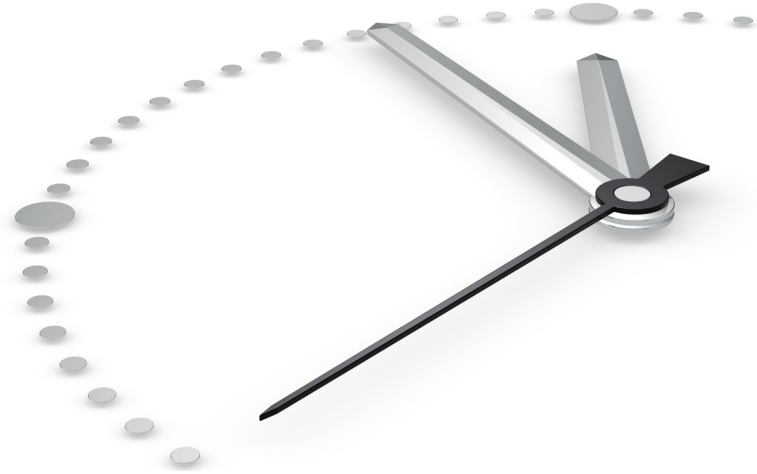

**Now, your employees can do this.**

**Looks fun, right?**

QProposal saves time...

and money.

Best of all?

**IT'S FREE!**
