

Public health scheduling made easy

Skedulo provides a booking and appointment management system for cities and countries trying to safely reopen their economies.

Efficiently manage virus testing, vaccination administration, elections, and large scale entertainment events

Schedule appointments at nearby locations based on site capacity

Control & triage queues, overbooking, and arrival times

Understand location capacity, demand and wait times

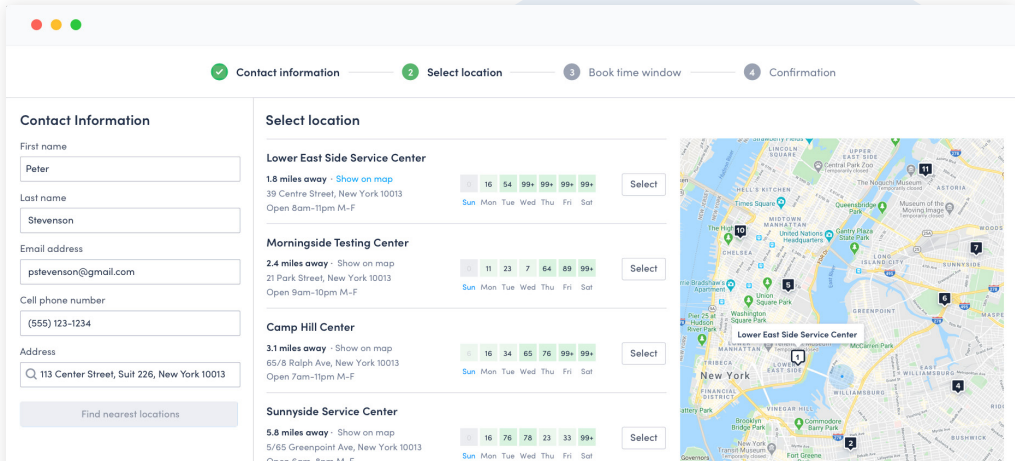

Keep residents and staff safe with no-contact check-in

Single or multi-site appointment scheduling and self-scheduling

Testing sites, polling locations, theaters and stadiums are susceptible to long wait times and disorganization.

- Plan and manage site throughput and capacity, scheduling time windows and demand.
- Schedule the appointment times for testing recipients based on location and available capacity.
- Reduce administrative burden and balance site productivity with call-center post-qualification scheduling and recipient self-scheduling.

The screenshot displays the Skedulo booking interface with the following sections:

- Contact Information:** Fields for First name (Peter), Last name (Stevenson), Email address (pstevenon@gmail.com), Cell phone number ((555) 123-1234), and Address (113 Center Street, Suite 226, New York 10013).
- Select location:** Lists three locations with their distances and operating hours:
 - Lower East Side Service Center:** 1.8 miles away, 39 Centre Street, New York 10013, Open 8am-11pm M-F.
 - Morningside Testing Center:** 2.4 miles away, 21 Park Street, New York 10013, Open 9am-10pm M-F.
 - Camp Hill Center:** 3.1 miles away, 65/B Ralph Ave, New York 10013, Open 7am-11pm M-F.
 - Sunnyside Service Center:** 5.8 miles away, 5/65 Greenpoint Ave, New York 10013.
- Book time window:** Displays a calendar grid for the selected location, with dates and times (e.g., 16, 54, 99+ for Sun, Mon, Tue).
- Confirmation:** A map view showing the selected location and surrounding area.

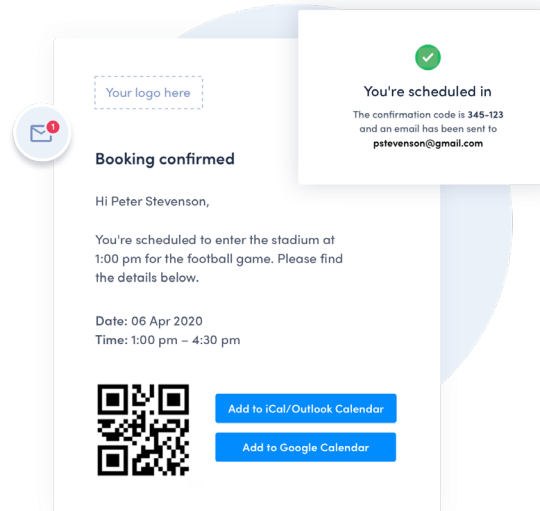

Monitor capacity across one or multiple locations

Monitor appointment scheduling, site capacity, and inform decisions to improve site staffing and logistics.

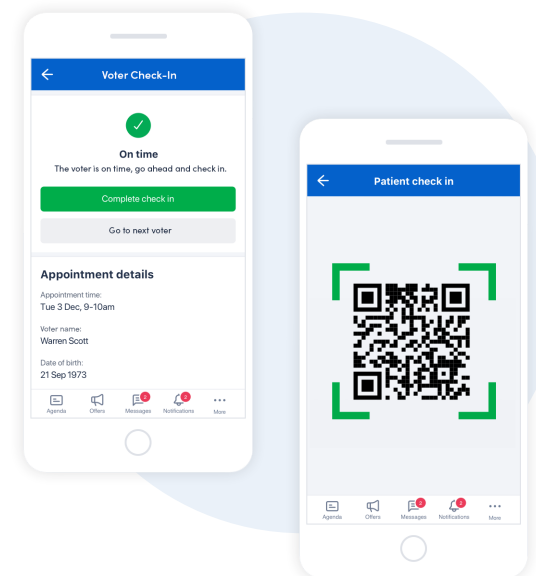

Crystal clear appointment details, reminders, and instructions

Keep residents informed by email or SMS. Automate the delivery of appointment details, times, and what to expect when they arrive.

Fast and safe recipient check-in

Ensure staff safety and efficiency with on-site mobile check-in processes designed to monitor arrival time accuracy and tracking. Reference entry or barcode scanning to assist with physical distancing during check-in operations.

Skedulo builds deskless productivity software for the 80% of global workers who don't work in a traditional office setting. From employees in fixed location facilities to mobile field workers on the frontline, deskless workers number 2.7 billion worldwide. BioReference Laboratories, Sunrun, The American Red Cross, and hundreds of other organizations have used Skedulo's Deskless Productivity Cloud to book over 5 million appointments worldwide.
