

Field Dump Pro – Install & Purchase Guide

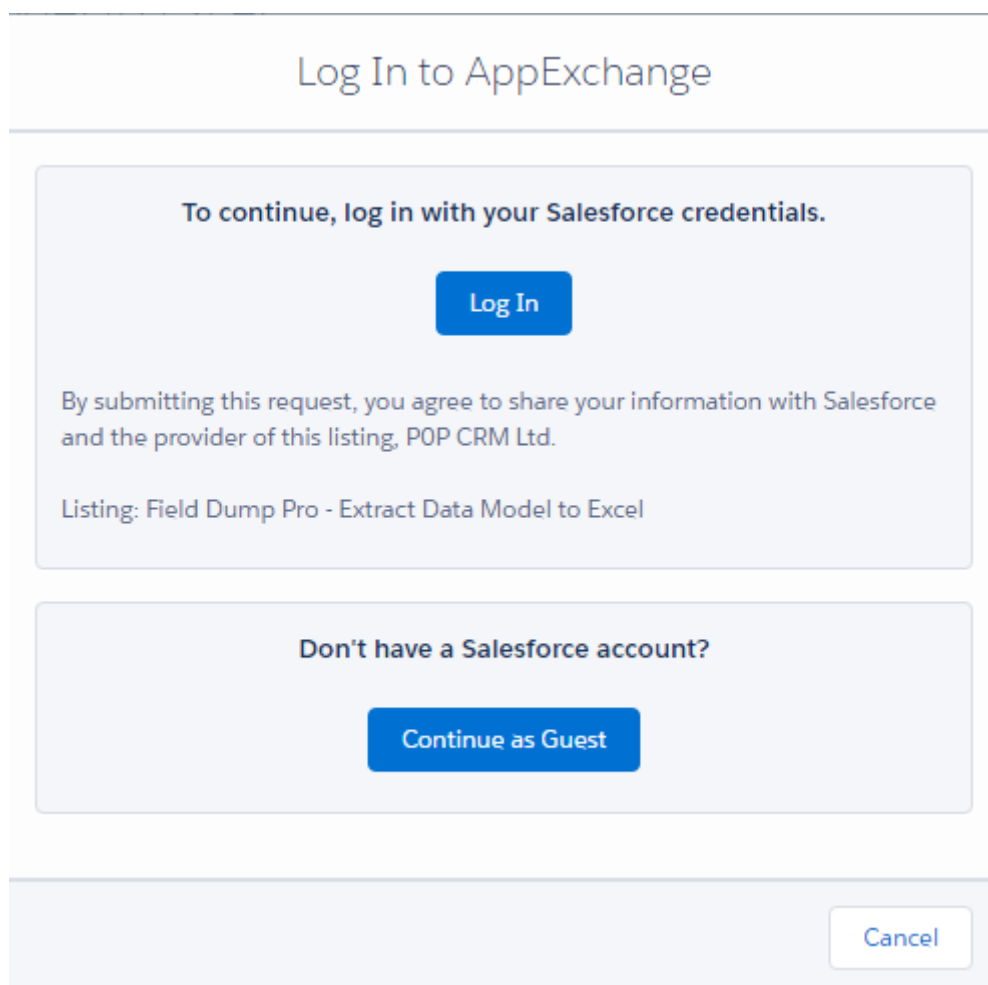

Visit our Field Dump Pro listing on the [App Exchange](#).

The app is available for a 15 day free trial.

Press the 'Get It Now' button.

Log into AppExchange (Use Salesforce Credentials for Production or Developer Org – Should be admin user or user with permissions to complete appexchange installs)

Field Dump Pro – Install & Purchase Guide

Select if you wish to install into a Production or Sandbox org:

Where do you want to install this package?

Before you install in a production org, we suggest testing in a sandbox.

Install in a Production Environment
Install where you or your users work, including developer orgs.

Install in a Sandbox
Test in a copy of a production org.

Cancel

Log into the org you need to install into.

Confirm Installation details with checkbox and hit 'Confirm and Install' button.

Field Dump Pro – Install & Purchase Guide

The App can be launched from the App Launcher (icon or text link)

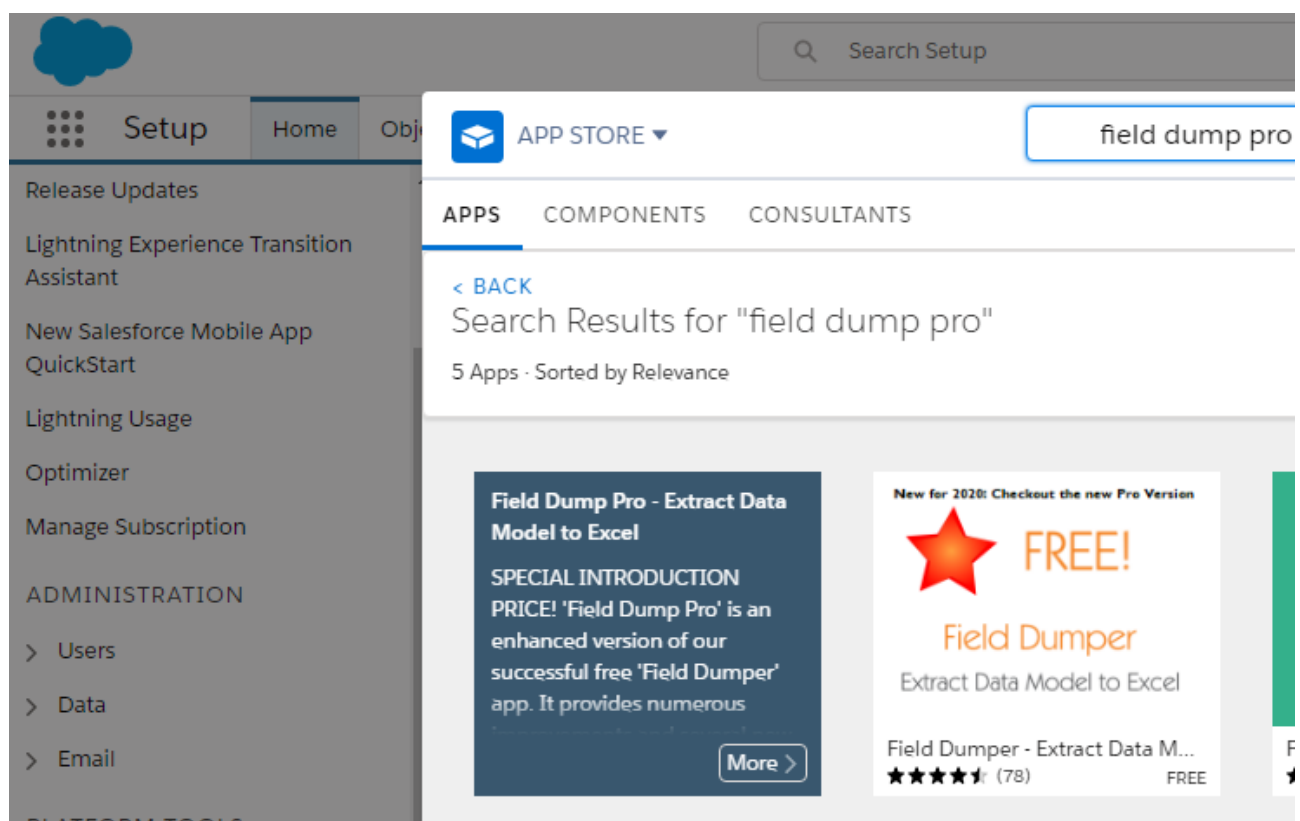

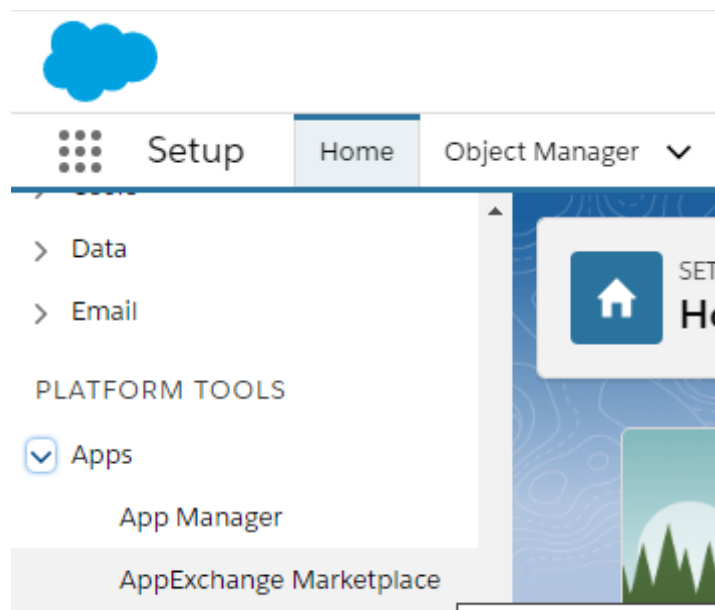

Alternative Process:

AppExchange can be reached from your Salesforce org – an alternative process to start the install is:

Log into Salesforce org where you wish to install as an admin user.
Goto **Setup/Apps/Salesforce Marketplace** and this launches a pop up screen for the AppExchange. Search for app and press the 'get in now' button. Steps are then same as above.

Field Dump Pro – Install & Purchase Guide

Important: Additional Step if Domain Name Not Used

There is no need to make any setting changes if the org has a Domain name defined.

If you have a Domain set you will have a url like domainname.my.salesforce.com – To confirm, see **setup/ domain management/ my domain**.

Field Dump Pro – Install & Purchase Guide

If your org does not have a Domain name defined then you need to add a Remote Site Setting to allow the org to talk to itself to access the Salesforce tooling API.

To set a Remote Site Setting – Setup / Security Controls / Remote Site Settings

Remote Site Name: self (or something of your choice)
Remote Site URL: <https://instanceid.salesforce.com>

Where **instanceid** (like EU6 or NA29) can be determined from **Setup / Company Settings / Company Information**

API Requests, Last 24 Hours	0 (101,000 max)
Streaming API Events, Last 24 Hours	0 (200,000 max)

Purchase Instructions

1) Install the app into your Prod org using an admin user. (just like deploying to a sandbox). This will be usable under a 15 day free trial. (You may have done this already)

2) Using the same admin user, log into the appexchange and take the '**My Installs & Subscriptions**' link from user name. Or <https://appexchange.salesforce.com/appxMyAccount> to commence purchase.

Field Dump Pro – Install & Purchase Guide

3) This lists out the apps you have installed in the Prod org. Take the '**Buy Now**' link on the Field Dump Pro listing row. Enter credit card info and complete purchase. The Prod org now becomes licensed.

LISTING	LISTING TYPE	UPDATED	INSTALLED	PAYMENT STATUS
 Agile Accelerator	APP	10/08/2020	✓	Installed - Free
 Field Dump Pro - Extract Data Model to Excel	APP	09/15/2020	✓	Active Subscription

4) Subsequent sandboxes created from the licensed prod org also become fully licensed.

5) If there are current sandboxes connected to licensed prod org that have expired test license and now need to be licensed just drop us a email with org id(s) and we can manually extend those.
