

Donor Engagement Bolt for Nonprofits

OVERVIEW

Donor Engagement Bolt for Nonprofits is a Salesforce Community template with custom components to provide your donors and members the ability to view their household giving history and recurring gift status, update their contact information and configurable preferences, make a gift, and submit inquiries to your fundraising team.

VALUE PROPOSITION

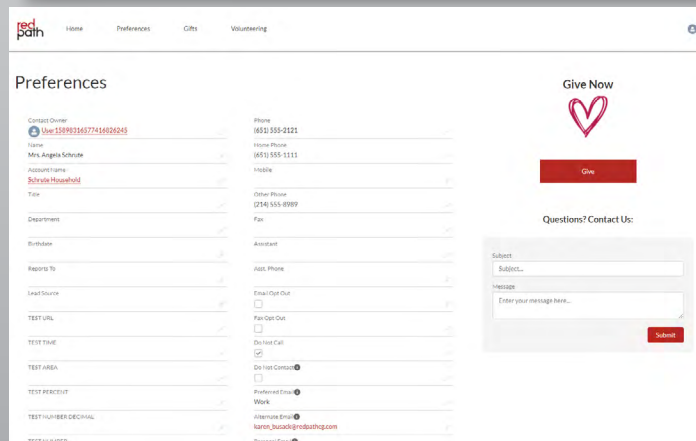

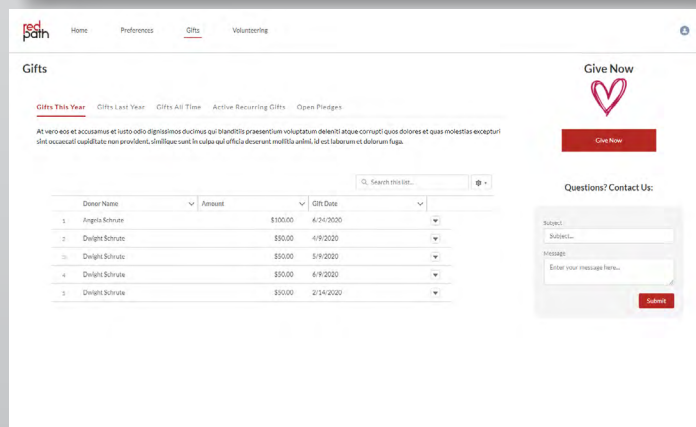

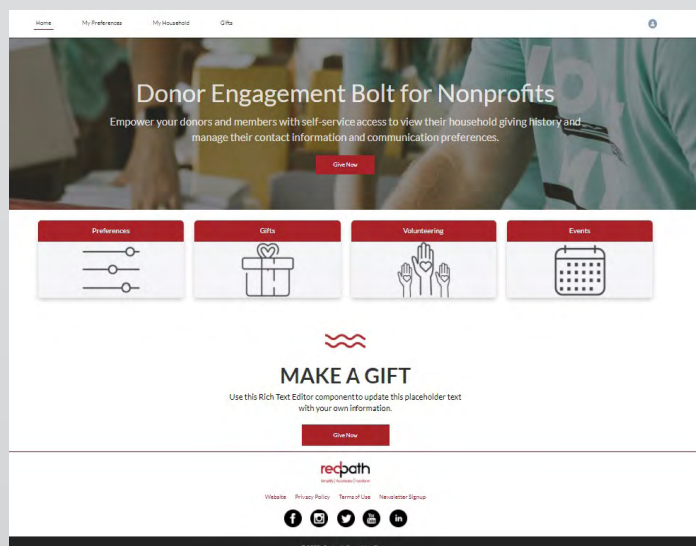

Empower your donors and members with self-service access to view their household giving history and manage their contact information and communication preferences.

KEY CAPABILITIES

- Update contact information and communication and other preferences
- Browse giving history and recurring donation status
- Make a new gift
- Submit inquiries to fundraising team
- Use with Customer Community and Partner Community licenses

IDEAL PROSPECTS

- Nonprofit Cloud user
- Wants to empower donors with a new way to engage
