INTRODUCTION

- PDF Watermark is a custom Salesforce application. This app is used to add watermark in PDF files. Both text and images can be used as watermarks. It supports click Graphical User Interface which is very simple and easy to use.
- Salesforce user can now add watermark in their documents through click of a button from inside Salesforce.
- The solution allows user to define the watermark text or image, position, color and font size to enrich their documents.
- Authenticity & Security of Documents Can be maintained.

FEATURES

- This application has been developed with simple user interface & needs less installation and user efforts. Users need not be technical in installing and using it. Different features are in this application like we can watermark using text or images.
- We can watermark all pages or the custom range feature is also provided.
- We can choose different text colors, rotation, alignment, font size etc according to our needs.
- It saves time as you need to just install the app and it's ready to use.
- It is only available for Lightning experience.

Features of PDF Watermark App

Add Custom Watermark

The PDF Watermark App by Algoworks allows users to add custom watermark to their pdf documents within Salesforce in two formats, text and image.

Format Watermark

The App allows you to customize and format the watermarks very easily. The user can change the size, color, font, opacity and the angular position of the watermark.

No-code Salesforce Application

PDF Watermark App is a no-code Salesforce application that is free and can be a great, time-saving tool for all types of Salesforce users and businesses.

LOGIN INTO THE ENVIRONMENT - FRONTEND

salesforce

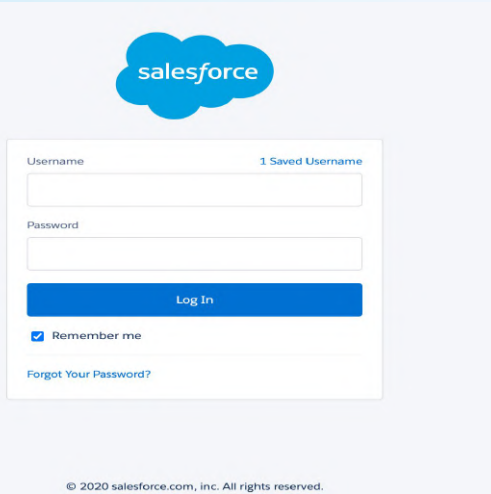

To begin, the user must login to their salesforce org.
Once the user is logged in the following dashboard appears.

Fill in the user
credentials.

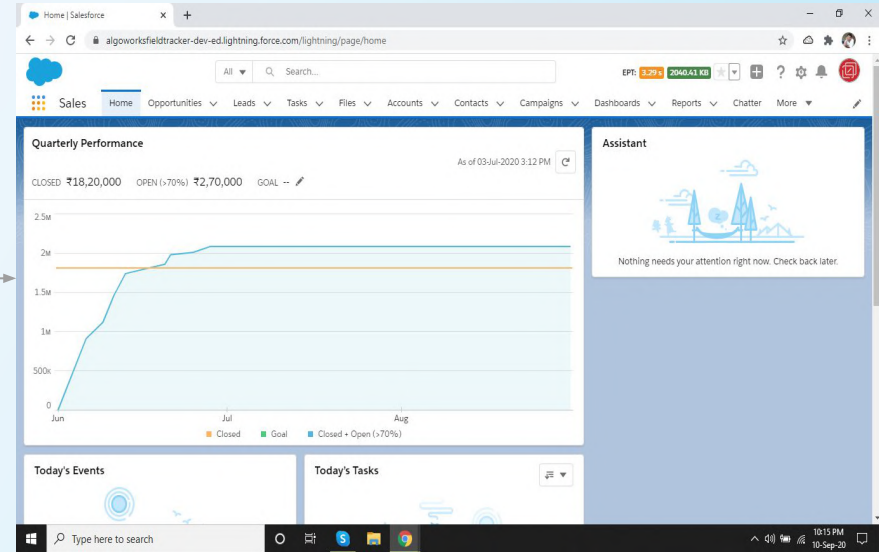

User name
(Case sensitive)

Password
(Case sensitive)

Click on login.

The login form features the Salesforce logo at the top. Below it, there are input fields for 'Username' and 'Password'. The 'Username' field has a hint '1 Saved Username'. A blue 'Log In' button is positioned below the password field. Below the button is a checkbox labeled 'Remember me' which is checked. A link 'Forgot Your Password?' is at the bottom. The footer contains the copyright notice '© 2020 salesforce.com, inc. All rights reserved.'

Installed Packages

On AppExchange you can browse, test drive, download, and install pre-built apps and components right into your Salesforce.com environment. [Learn More about Installing Packages](#)

Apps and components are installed in packages. Any custom apps, tabs, and custom objects are initially marked as "In Development" and are not deployed to your users. This allows you to test and customize before deploying. You can deploy the components individually using the other features in setup or as a group by clicking Deploy.

Depending on the links next to an installed package, you can take different actions from this page.

To remove a package, click Uninstall. To manage your package licenses, click Manage Licenses.
