THE INTUITIVE AND QUICK POWER OF CPQ

iQ CPQ is built to offer flexibility at each step of the quoting process. Using an intuitive administration console, you can easily define your product catalog, pricing promotions, discounting, lists of related products, workflows, and approvals. You can easily customize the look of your quote acknowledgment form with our template builder, or use the advanced proposal generator for even greater control and design capabilities. iQ CPQ fits seamlessly within your key processes, enabling you to get the best return from your CPQ investment in addition to faster and more successful user adoption.

- Fully lightning enabled
- Enhanced Flexibility
- Customizable User Views
- Updated User Interface
- Increased Agility
- Improved Legibility
- Mobile optimized
