

List View Exporter Documentation

- Install the package using the link.
- Once installed the following Standard Objects will have the export button installed.
 - Account
 - Contact
 - Lead
 - Opportunity
 - Campaign
 - Task
 - Event
- User needs to add the button as a list view button.
 - Go to Object in Object Manager
 - Click on Search Layouts for Salesforce Classic
 - Edit 'List View'
 - Add the 'Export Lists' button in Custom Buttons
- To add the Export button to a Custom Object:
 - Go to Object in Object Manager
 - Click on 'Buttons, Links and Actions'
 - Click 'New Button or Link'
 - Select 'List Button' from radio selection options
 - Leave Content Source – 'URL'
 - Past the following into the text box:
`/lightning/cmp/lvexporter__ListViewExporter?c__objectName=Object_Name&c__sessionId={!$Api.Session_ID}`
 - Replace 'Object Name' with the Custom Object API name.
 - Add the button to the Object List view by doing the above-mentioned steps.
