- ✓ Bring details from Jira to Salesforce. Display linked Jira issues, attachments and comments.
- ✓ Create automated Salesforce flows to create and comment Jira issues

Description

Peeklogic Salesforce Development company is famous for performing Salesforce app development, plugins and AppExchange Applications for our partners and customers.

We developed the AppExchange Application - Peeklogic Jira Connector plugin with the aim to help our customers improve cost effectiveness and productivity. Our Jira Salesforce Connector ensures seamless communication between Sales and Development teams who used to live in different environments.

SALESFORCE REPORT SENDER

OWN APPEXCHANGE
PRODUCT

Appexchange

The screenshot shows the Salesforce AppExchange interface for the "Peeklogic Report Sender" app. The page layout includes a navigation bar at the top with the Salesforce logo, a search bar, and various menu items like "Home", "Recommended for You", and "Solutions by Type". Below the navigation bar, there's a breadcrumb trail: "< SEARCH RESULTS | ALL APPS > IT & ADMINISTRATION > ADMIN & DEVELOPER TOOLS". The main content area features a large card for the app with the Peeklogic logo, the title "Report Sender", and a description: "Send reports from Salesforce to external email address". To the right of the card, there's a "Get It Now" button and a "Free" label. Below the card, there are tabs for "Overview" and "Reviews". The "Overview" tab is active, showing a "Highlights" section with three bullet points: "Extra flexible schedule of unlimited reports", "Send in excel and csv format", and "All features are free and unlimited". The "Description" section provides more details: "Peeklogic Report Sender - allows to automatically send reports from Salesforce to external email addresses in csv or excel format scheduled or at once", "100% native", "Schedule unlimited reports", "Send report from Salesforce to external users", and "Send Report from Salesforce to external email address".
