What We Do

Implement Sensational Systems

Our team helps you choose and implement the right Salesforce solution that suits the size, needs, and goals of your business, so that you can process data at lightning speed.

Give advice Or Provide Consulting You Can Trust

We work tirelessly to identify the issues that are holding back your growth, going on to implement systems that will change the way you operate by providing scalable and customizable solutions. We're ready to share our expertise that will help democratize your data, improve your business standards with in-depth quality assurance, and provide tangible growth and performance within days instead of months.

Seamlessly Integrate Your Systems

Digitization should make your daily life easier, not harder. That's why we provide you with flexible innovation that can be integrated within the cloud, on premises, or as part of a hybrid system.

Optimize Your Processes with Exceptional Salesforce AppExchange Products

Perfect the way your team members and employees work together (and remotely by implementing tailored Salesforce solutions and products that will make each day easier and more productive. Choose the Team That Works as Hard as Yours Does

Whether you're an enterprise or a start-up, we're in your digital corner – no matter your industry. We get thousands of positive reviews that help us stay motivated to keep improving. But don't take our word for it. Read what our happiest clients had to say:

"

Cloud Maven, Inc is one of the absolute BEST SIs/Partners I've ever worked with. They are smart, dedicated, innovative, and their Software works at scale with great performance. They know Salesforce and custom development best practices. VERY IMPRESSIVE. HIGHLY RECOMMEND!!!!

"

★★★★★

Bill Hahn in
(Sr. Customer Success Architect at Salesforce)

"

When we had a developer go through and assess building the custom solution it was going to be cost prohibitive. We were up and running with Credit Checker within a week, which saved nearly $210,000 in the in the first year. Our team can receive an opportunity in Salesforce, pull the credit and select the vendor, in less than 60 seconds. With more than 2,500 applications processed each month, that saves us over 125 hours of time every month. It's truly amazing.

"

★★★★★

Manjit Panesar in
(Business Process & Product Manager at Ritchie Brothers)

"

The team at Cloud Maven, Inc was extremely responsive during implementation of our very tight project timeframe. And they knew what we were talking about. When you're developing on the Salesforce platform, you need a partner who knows both Salesforce and what you are trying to accomplish. It saved us 3 months of productivity. It was super easy and made this project a huge success. It only takes 45 seconds now to process a credit application, where it used to take 2 hours.

"
