

## IMPROVE IMAGE SHARING WITHIN SALESFORCE EXPERIENCE CLOUD

osf.digital

| an OSF Product

### Image Loader

*Image Sharing App for Experience Cloud*

Online communities are a great way to increase collaboration with customers, partners, and employees. Whether it's a support community, internal forum, or sales channel, positive community experiences improve performance.

**Image Loader** improves image sharing among **Salesforce Experience Cloud** members by enabling direct upload and targeted publishing—with just a few clicks. Our app enables you to share images to your site members, making them visible to logged-in and guest users without any manual edit.

# FEATURES & BENEFITS

## EASY TO INSTALL

Install and configure Image Loader in just a **few steps**. After completing the process, you can easily access the app from the Salesforce App Launcher.

## DIRECT UPLOAD

Upload images **directly from your device** to Salesforce Experience Cloud using a section dedicated to image and member selection.

## TARGETED PUBLISHING

Choose the community where you want your image published, and **easily share** by pasting an image URL to your desired audience.

## AVAILABLE TO ALL USERS

The URL generated by Image Loader enables you to share images with **all site users**—logged-in members and guest users can view uploaded images.

## EMAIL NOTIFICATION

For every image you publish, you receive an **email update** to let you know when the site changes are live.
