Intuitive and easy to use, QorusDocs enables your sales force to build a customized, professional, engaging proposal in minutes versus hours.

In fact, QorusDocs users reported creating pitches, proposals, and content 5X faster than before.¹

QorusDocs makes it easy for your sales force to prepare proposals quickly, with personalized content. QorusDocs can help with the mountain of effort required to answer RFPs, RFIs, and RFQs with pitches, presentations, and relevant sales enablement materials to win business.

A recent study showed that over 70% of businesses struggle with responding to RFPs/proposal requests in a timely manner. Further, the same study showed that 91% of QorusDocs customers reported that QorusDocs was effective or highly effective in solving this problem.²

We have been using QorusDocs to amplify our marketing presence and outreach to our prospective clients. The ability to customize the material is a key feature that we have taken full advantage. Our conversion rate has increased from 35% to 75%. The biggest benefit is that the quality of content and relevant solutions (we can highlight) provide relevant and useful information to prospects and clients. It provides a very rich environment for retention, maturity, and development for the clients.

Create Tailored Pitches and Proposals that Win

- Easily tailor pitches, proposals, and general content to your client or prospect's unique needs.
- Arm your sales team with pre-approved, well thought out content for presentations, emails, and other documents.
- Organize relevant sales enablement materials for each stage of the buying cycle.
- Create a single source of truth for all your best proposals and content.

Save Time Creating the Right Materials

- Reduce the amount of time spent searching for the right content with simplified search and data intelligence.
- Intuitive and easy to use, QorusDocs enables organizations to search multiple content sources at once, including SharePoint sites.
- Automatically update your documents to reflect changes in source content, like new features or updated company information.
- Use built-in filters within drop-down menus built into the Microsoft Office Suite and your CRM.

Track engagement for smarter follow-up conversations

- Built-in measurement tools track what prospects are looking at within your content, what they're sharing, and the time spent on each page.
- Use these valuable insights to tailor your follow-up conversations and close deals faster.

Developed for Security

- Built on Microsoft Azure, QorusDocs seamlessly integrates with the full Microsoft Office suite, Teams, SharePoint, OneDrive, Dynamics365, and Salesforce.
- Reduce errors and save time by eliminating the need for re-entering the same information on each proposal.
- Secure document sharing enables you to collaborate with subject matter experts globally on documents, presentations and PDFs, ensuring your documents are sharp and accurate.

"Best proposal solution on the market. The time saving, quality gatekeeping and collaborative approach that QorusDocs offers is a must have for any pitch team. QorusDocs provided us with a one stop shop solution to provide for a smooth, professional and relevant solution."
