

...All the king's horses and all the king's men – couldn't put The Broken Sales Chain together again

A quantum leap in Business-to-Consumer business success –
can lead to 30% closure rate increase.

- Direct cellular communications increases closure by as much as 30%
- Rep's cellphone is "always-on" and always available (or schedule-managed / forwarded)
- Additional messaging channels – SMS, Whatsapp – all the way to closure!

Add to that:

1. Activity reporting for performance optimization and training
2. Automatic cellular to CRM synchronization
3. Optional - call transcripts and AI-based BI and analytics

...and you get your complete sales cycle restored!

Mobile2CRM™ enables an additional cellular number on cell phone, connected to the relevant resources (CRM, recording, etc.). This provides a premium cellular relationship with the customer - while protecting seller's personal cellular communications privacy. Each seller's mobile device is assigned a non-intrusive business profile. The solution captures business-only interactions conducted on each mobile phone, while personal conversations remain private — complying with strict privacy laws.
