nagarro

We are Nagarro

Thinking Breakthroughs

We are a digital engineering leader with a full-service portfolio

Our clients need to become digital-first companies that compete through superior software platforms.

Nagarro helps them transform, adapt, and build new ways into the future through an entrepreneurial, agile, and caring mindset.

We are many,
yet we are one

26 countries **10,000**+ experts

No single HQ · Many nations · Lots of diversity · One manifesto

Our latest milestone

In December 2020 Nagarro became an independent, listed company.

Nagarro trades under the stock symbol NA9 at the Frankfurt Stock Exchange.

Our manifesto*

We are building a new type of organization that promotes agility, entrepreneurship, and global working.

Through this experience, we have realized that:

While there is sometimes value in the items on the right, **we value the items on the left more.**

Left		Right
Entrepreneurial & configurable	Over	Hardcoded & static
Virtual global organization	Over	Legal entity & national orientation
Enabling creative instincts	Over	Restrictive & possessive instincts to exert control
Friendly collaboration	Over	Competitive or penny-watching dealing between teams

*any resemblance to the agile manifesto is completely intentional.

Caring is our superpower

Client-centric · Agile · Responsible · Intelligent · Non-hierarchical · Global · Caring

These **7 core values** are at the center of everything we do:

How we conduct ourselves · How we measure ourselves · What we promise our clients

Caring means we give back

R&D to improve human conditions

Several of our investments in AI/ML areas are for faster diagnosis of human ailments.

Supporting many worthy causes

Dignity U Wear, Literacy India, I am Gurgaon.

Programs for differently-abled

We run an award-winning program to train people on the Autism-spectrum to become testing professionals.

Reducing fatalities from road traffic

We co-founded India's first 'Vision Zero' implementation to systematically reduce road fatalities.

Improving the urban environment

We co-founded India's *Raahgiri*, a car-free movement that frees up urban spaces for non-motorized uses.

Helping shape the future of education

We are co-founders and incubators for Plaksha, a technical university aimed at providing education on future-relevant topics.
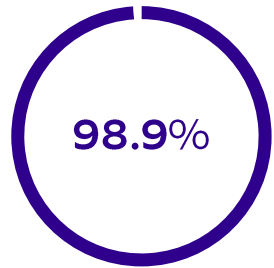

Read more: Nagarro assessed as "strong in sustainability" in its first-ever external ESG assessment
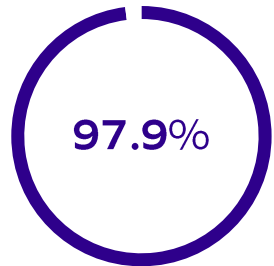

We measure our success by client satisfaction

Over 90% of revenue comes from repeat business from our existing customers. A large part of new business also comes through existing customer referrals.
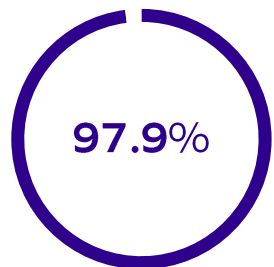

What our clients say about us

98.9% — Offered solution match client's expectations?

97.9% — Aligned with client's corporate culture?

97.9% — Understand client's business needs effectively?

"

We enjoy a long-term partnership with Nagarro, as they have always understood our needs and have always delivered the right solution. In the world of technology, it is easy to get caught up in the complexity of things, but with Nagarro, there is always more focus on the result, the destination, and how it will better our operations. The importance and mutual benefits of this relationship has been proven once more during COVID-19.

Jeremy Drury

Director - Digital & Technology Services,
Star Alliance

Nagarro has been our partner since 2010 supporting us with high-quality IT projects and giving us flexibility when we develop software solutions as well as 24/7 monitoring support. For us it is important that the teams are part of the ASSA ABLOY family, this has worked very well and I find our team members to be professional and committed to build customer value, something that we find important.

Catharina Tunberg

GM of Shared Technologies,
ASSA ABLOY

"

What we do

We excel at digital product engineering. We solve complex business challenges through agility and innovation and call this *thinking breakthroughs.*

Chances are we've met before…

We co-created flight planning software to calculate 30,000+ flights daily

We built lighting control software that lights up the White House & Statue of Liberty

We work on door opening solutions for more than half of the world's hotel rooms
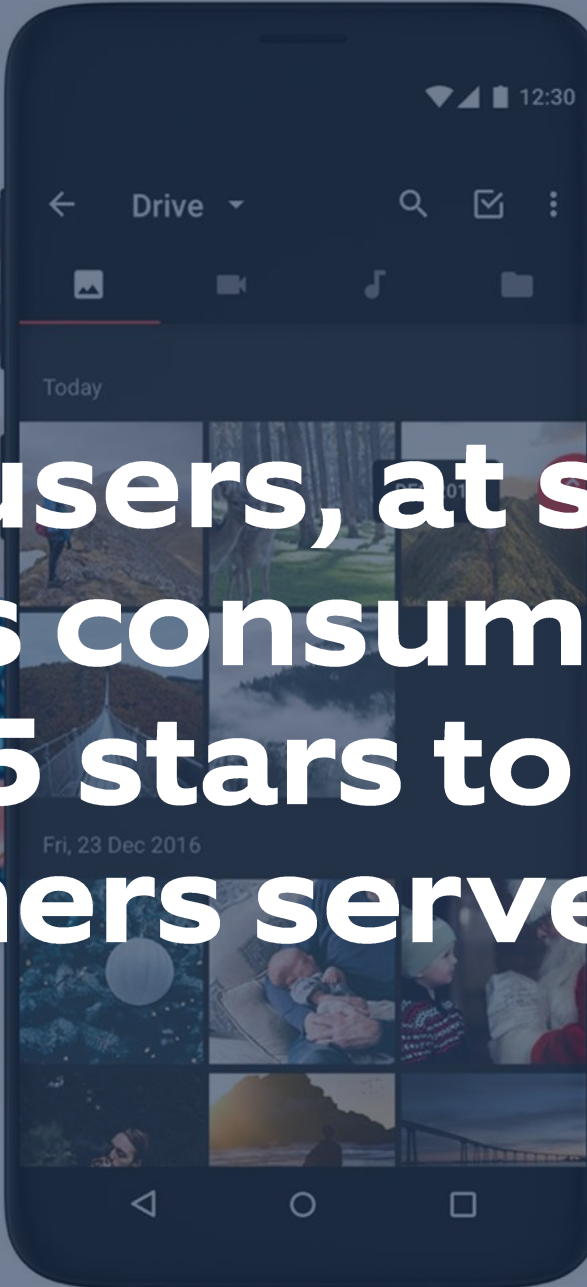

We delight users, at scale: We took this consumer app from 2.5 stars to 4.5, 4M+ customers served

Bring your most complex challenges.

It's our playground.

World-class enterprise and managed services

We bring 30 years of expertise in helping you manage and scale your most important infrastructure.

- Strong capabilities in enterprise applications (ERP, IAM, etc.)
- Service management, application monitoring, and helpdesks
- Application management and support
- DevOps and CloudOps

Modern stack

Application rationalization, keeping infrastructure secured and future ready

Automated Ops

Process automation, RPA, tasks transition from humans to bots, notifications and escalation handling, DevOps

Smart by design

AI aided operations, predictive risk monitoring and handling

Breakthrough digital engineering & design

Top notch software engineering

Creating delightful products and digital solutions is largest part of our business.

- Digital business transformation and innovation consulting

- Personalization and experience led solutions across CRM, marketing, eCommerce and cloud-based platforms

- Enterprise modernization and IOT

- Custom web application, mobile apps engineering

AI-led intelligent solutions

From deploying machines with vision, to robots that read, to turning billions of rows of data into insights, we create impactful AI based solutions to drive business innovation

- Deep learning-based AI solutions

- Big data services

- Business insights & intelligence across business processes

Enterprise class
Built to scale, with attention to enterprise architecture at every step

Quality focused
We won't sleep until you're satisfied

Thinking Breakthroughs
A new perspective opens the door for exciting new solutions

Product studio & digital ventures

Amazing product studio

From launching elegant and intuitive consumer-grade apps, to rapid prototyping, and creating full-fledged products, we've got you covered

- Delightful user experience and design

- Customer journey transformation

- Rapid prototyping & product studio for launching new digital ventures

Agile like a startup
We move quickly, and build for impact

Prototype first
Product in your hands early and often

Design DNA
Design isn't an afterthought; it's core to who we are

Across a diverse landscape

We work across the technology and tools landscape. Focused on solutions.

We utilize the right set of technologies needed to solve a given business problem. We aren't prone to using technology for technology's sake.

The areas mentioned here are those where we are continuously developing game-changing solutions for our clients.

Artificial Intelligence & Machine Learning

IoT & Industrial Automation

Accelerated Quality & Test Engineering

Cloud & Digital Enablement

User Experience Design

DevOps & Infra-Ops

Marketing Tech

Assisted & Augmented Reality

Consumer Experience

Who our clients are

We care about our clients, about their success, and about
the partnership we aim to build. See how we have helped them
to embrace digital and accelerate innovation.

We are a strategic partner for many market leaders

Our strategic partners
