

Horizontal Solution, Cross-Industry

Cognizant

Rapid Forms

OVERVIEW

Give your form and survey build an extra Zap with just few clicks. Rapid Forms is a native Salesforce forms designer and forms builder, with a library of pre-built components for lightning fast build adapting to the existing object and data structure. Build engaging journeys during on-boarding for a product or service, create appealing surveys and collect valuable feedback.

VALUE PROPOSITION

Rapid Forms saves 90% cost via application adoption, provides quick time to market, configurable with pre-built component library, business friendly and reduces TCO, provides wide cross-industry use cases and supports multi-step and multi-lingual forms.

KEY CAPABILITIES

- Build engaging forms for various functions by simply using drag and drop and a rich set of components from the forms designer
- Easily configurable, less time-intensive forms with intuitive UI, making it business friendly and less IT dependent
- Flexible and Extensible framework with ability to add custom re-usable components with guided help text
- Ability to create multi-lingual forms with our proprietary multilingual picklist component
- Scalable, responsive and device-friendly design with some accessibility pre-built features

The screenshots show the Cognizant Rapid Forms interface. The top screenshot shows the 'Form Designer' view for a 'VisaApplication' form, displaying a sidebar with components like 'Form Title', 'Form Description', 'Content', 'Test Step Info', 'Conditions for apply...', 'Overview', 'Info', 'Applicant Name', 'DOB', and 'Email'. The middle screenshot shows the 'Form Designer' view for a 'Short-term study visa' form, displaying a sidebar with components like 'Form Title', 'Form Description', 'Content', 'Test Step Info', 'Conditions for apply...', 'Overview', 'Info', 'Applicant Name', 'DOB', and 'Email'. The bottom screenshot shows the 'Form Designer' view for a 'VisaApplication' form, displaying a sidebar with components like 'Form Title', 'Form Description', 'Content', 'Test Step Info', 'Conditions for apply...', 'Overview', 'Info', 'Applicant Name', 'DOB', and 'Email'.
