RELEASE THE POWER OF YOUR TEAMS

How all-encompassing is the product governance you have in place right now?

Good product governance is the process of decision-making and the process by which decisions are taken during their entire lifecycle. It should also help ensure you meet your regulatory obligations.

ALWAYS BE UP TO DATE

Prodigy gives your organisation:

-  **a defined methodology** to measure value for money
-  **processes and controls** to design, approve, market and manage
-  confidence that your products **meet regulatory requirements**
-  assurance that your products **deliver demonstrable** value to your client outcomes

SCORECARD FUNCTIONALITY TO MEET FCA 'VALUE FOR MONEY GUIDELINES'

Prodigy delivers **organisation-wide product management**, keeping product offerings at the centre of your organisation and in constant alignment with their markets. It also keeps everything in **a single, locked down repository**, so you know exactly what decisions were made in the past, and why they were made.

The inbuilt **Prodigy scorecard** creates a simple and easy methodology to manage and meet the FCA guidelines on 'value for money' regulation.
