

Client Testimonials

With Fíonta's help, we've been able to achieve many development goals within our Salesforce instance and build a plan to achieve further goals as they arise. We are thrilled with the all-around service we have received from Fíonta and plan to continue our work with them into the future.

We transitioned to Salesforce during a challenging time, but Fíonta made it a seamless transition for us. The resulting solution has enabled us to expand our operations and become more client focused and data driven at the same time.

Fíonta has helped us implement Apsona for document generation and perform a household conversion of our instance. Both engagements were well managed, communicated and follow-up support was offered as needed post each project. I look forward to using Fíonta for our future Salesforce needs.

Simple. Reliable. Effective.

Our experience with Fíonta was wonderful and exceeded my expectations. I would recommend them to any organization looking to implement a Salesforce product.
