Technology Solutions for Government Agencies and the People They Serve

J2 Interactive is an award-winning software development and IT consulting firm specializing in customized solutions for health systems, research institutions, health information exchanges, and government agencies. Our approach is rooted in the fundamental belief that systems succeed or fail based on how well they serve the people who depend upon them. That includes clinical care providers, IT professionals, and administrative staff… but ultimately, it means service members, veterans, Native Americans, and their families.

Core Capabilities

- Technology Strategy
- Healthcare Interoperability
- Health Information Exchange
- Integration as a Service
- Healthcare Analytics
- Patient & Provider Engagement
- Field Service Optimization
- Virtual Health Applications
- Custom Solution Development
- Cloud Deployment / Managed Services

Differentiators
