

# RECRUITMENT AND APPLICANT TRACKING

Enable your teams with centralized data!

## SOLUTION

Fully customizable applicant tracking and recruiter candidate relationship management system built on and powered by Salesforce.

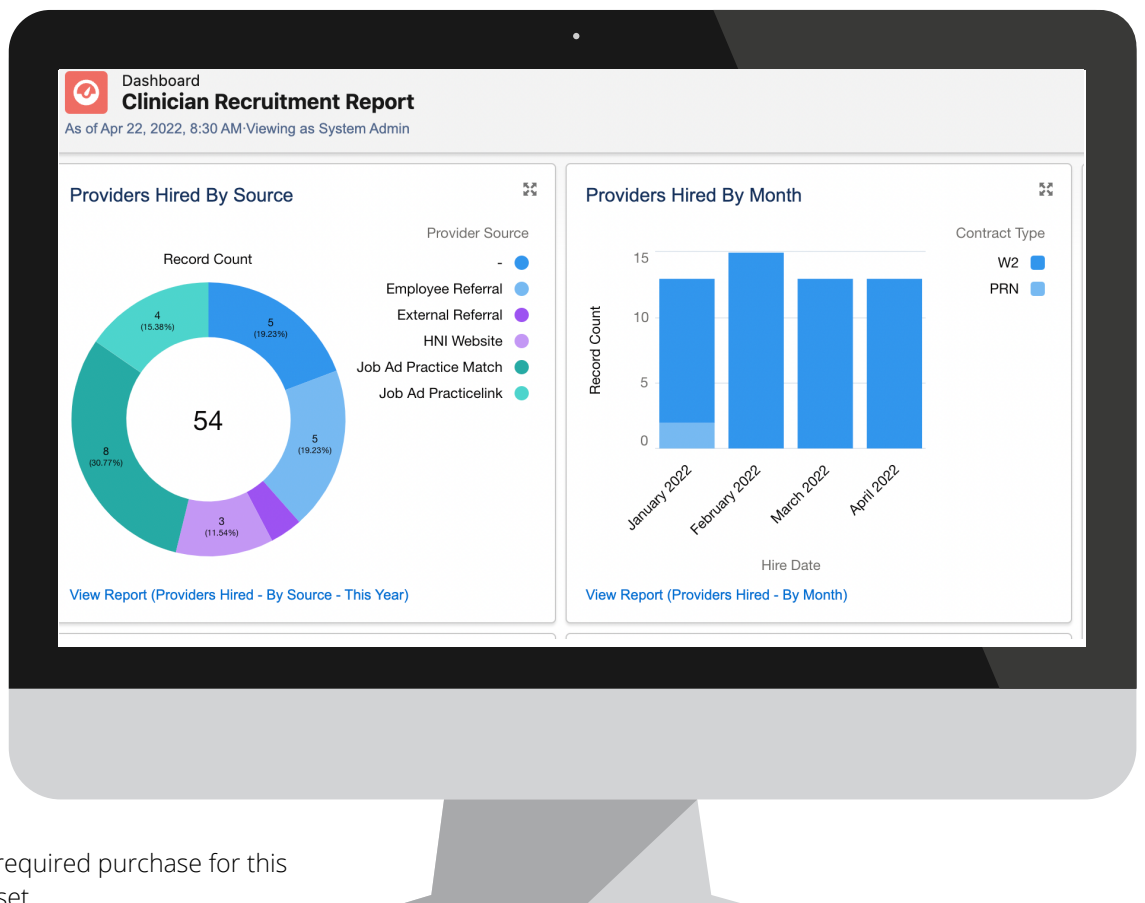

Automate the hiring process with a job site that allows candidates to search, apply, and onboard with document and information submission features. Integrated OCR technology\* parses and maps resume data into the system

Search and match candidates with filtered logic and automatically email out personalized job openings with Salesforce marketing automation tools

Create, organize, and manage your engagement with a fully customizable recruitment process

\*3rd Party OCR technology is required purchase for this feature set.
