

Cannabis Operations Managed in the Cloud

CloudMJ Cultivate is built on the Salesforce App Cloud, brings the world's #1 on-demand platform to the regulated cannabis industry

METRC INTEGRATION

- Nothing is more important to CloudMJ than the privacy of our customers' data
- This is why CloudMJ Cultivate with Metrc integration is built on the Salesforce App Cloud
- Integration with Metrc works out of the box
- No middleware or other products needed
- Setup and start data import in minutes
- Data updates occur every 30 minutes

SALESFORCE

- Salesforce platform is so secure, companies around the globe trust it to manage their operations
- Protected by Salesforce Security Model and Platform
- Easily create processes and automation with Salesforce flow builder
- Analytics and reporting powered by Salesforce Analytics
- Automatic data backups
- Same login and user interface as Sales Cloud
