MTX

Public Sector Licensing and Permitting Solution

Our team of government industry professionals and technology experts design digital government solutions for regulatory agencies. Through seamlessly integrated technologies we provide state governments the ability to facilitate and automate their services and business processes such as licensing, permitting, and inspections.

FEATURES:

- **Online Portal**
- **Application Intake**
- **Payment**
- **License Issuance**
- **Application Amendments & Renewals**
- **Inspections**
- **Compliance & Appeals**
- **Complaint & Investigatory Case Management**
- **Administration/Board Hearings**

BENEFITS

Issue Licenses Faster:
200-500% reduction in the time it takes to issue a license, with 85% of licenses issues within 24 hours.

Improve Efficiency:
80% reduction in call volume to agency's offices and a 20% decrease in late renewals. Increased self service portal capabilities.

Improve Accuracy:
95% decrease in incomplete applications and errors, a decrease in compliance issues, and an increased number of inspections performed.

Easy-to-use:
New and existing applicants can log-in to an online portal to upload, view, edit, and manage all required documentation and stay informed on the current status.
