MTX

Integrated Early Childhood Care Solution

Connecting research, policy, and practice to help children reach their full potential.

Features

Easy self-service online and mobile processes application and incident reporting forms, with automatic interaction with state or investigation results, or as needed

Ensure high-quality educators and programs with AI-powered analytics and insights - quickly and easily at your fingertips
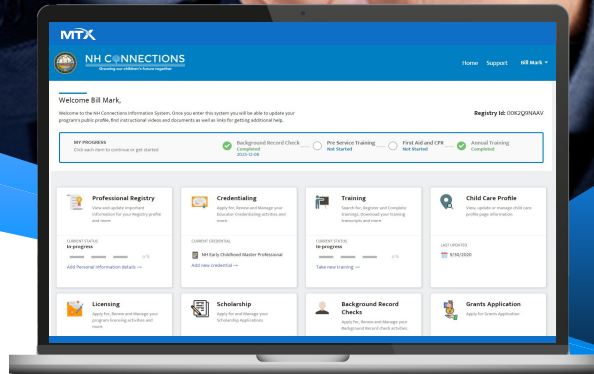

Quickly produce, automate and view in real-time quality rating scorecards of child-care centers or homes.

Reduce time, bias, and errors in hiring processes and increases compliance and efficiency with streamlined Background Record Check

Professional registry and development system allows educators to build a profile of education, training, and employment data

Enable educators to get the most up-to-date training and learning management solution

Educator credentialing applications support state licensure, certification, and approved preparation program review

The leading cause of reduced funding for essential early childcare support is often because of misinformation, slow processing times and inaccurate reporting resulting from disjoining technology solutions.

We've been a trusted partner to multiple state agencies to modernize technology to improve their constituents' services, improve operational efficiencies and increase funding.

We get it. We're here to help - so you can get back to what matters most.

Benefits

- Reduce processing timelines
- Improve data quality and consistency across licensors
- Prevent Fraud & Increase compliance
- Easily identify resource needs by location
- No more paper, fewer headaches, errors, and more time helping children and families in person
- Improve engagement with your community
- Easy-to-use mobile app so licensors and investigators to work anywhere
