MTX

Transportation Grants Management Solution

Modernize your application process by digitizing the grants management application review and approvals lifecycle. With a user-friendly intake process, easily reportable program metrics, continuously learning artificial intelligence (AI) and sensible programmatic and financial processes, this solution allows for in-depth insights and an auditable, independent scoring committee capability.

FEATURES:

- Apply quickly via interactive forms

- Customize workflows—with multiple application stages and requirements—to suit unique grant program processes

- Manage communications and alerts, including award notifications

- Automate reviewer assignment of applications

- Monitor the full lifecycle of applications

- Satisfy federal requirements with out-of-the-box grant reporting

- Train custom AI models for sophisticated data extraction using Intelligent Document Processing

Ensure accountability through milestone tracking

Key Benefits

Integrate with grants.gov

Streamline processes
