

Adyen Salesforce B2C Commerce & Quick Launch

Best-in-class, feature-rich payments solution for your business

Whether you're starting up or expanding globally, save time and grow your business with a truly unified payments platform.

One integration, all of Adyen

Access the full capabilities of Adyen fast, including acquiring, risk management, 3D Secure, Unified Commerce, payment methods, and recurring payments.

Fast go-live

We'll look after your payments so you can spend more time running your business. Simply install and configure the cartridge to enjoy some of our best functionalities.

The cartridge is also certified as an official Quick Launch solution for B2C commerce.

Grow into new markets

Expand your business and let customers pay the way they prefer, wherever they are in the world. Leverage the 100+ global and local payment methods offered by Adyen, like Apple Pay, Amazon Pay, BLIK, Konbini, iDEAL, and WeChat Pay.

Robust fraud protection

Minimize fraud and maximize conversions with industry-leading risk management tools. Offer more secure ways of processing card data, and reduce the scope of your PCI assessments, by using secured fields at your checkout.

Choose what's best for you:
