

Synapsum ProfitStream

Easily install in Salesforce to bring cost intelligence to sales for higher profit business

available on
AppExchange

salesforce

Plan & Target

Use Synapsum's Cost-to-Serve IO or your existing data model feeds to trigger supply chain cost alerts on customer accounts with the greatest opportunity at the right moment to change results.

Act & Respond

Deliver to sales the profit insights, steps, and tools to take action without leaving Salesforce. From a single account to an opportunity to a customer list, trade up the 'swivel chair' for better focus.

Measure & Improve

Track response and feedback with better visibility into execution, leaving less room for error. Sales, operations, finance, and business will finally work from the same playbook.
