eCOMMERCE

bE eCOMMERCE

BCAME DESIGNS AND DEVELOPS HIGHLY CUSTOMIZED eCOMMERCE SOLUTIONS, ANSWERING EVERY BUSINESS REQUEST AND NEED, EVEN THE MOST COMPLEX, IN **OMNICHANNEL** OPTICS..

Thanks to a team of experienced **Adobe Commerce** developers, **BigCommerce** and **Salesforce Commerce Cloud** certified resources and the collaboration of a Research and Development Department, **Bcame** is able to offer its customers highly innovative and technological solutions.

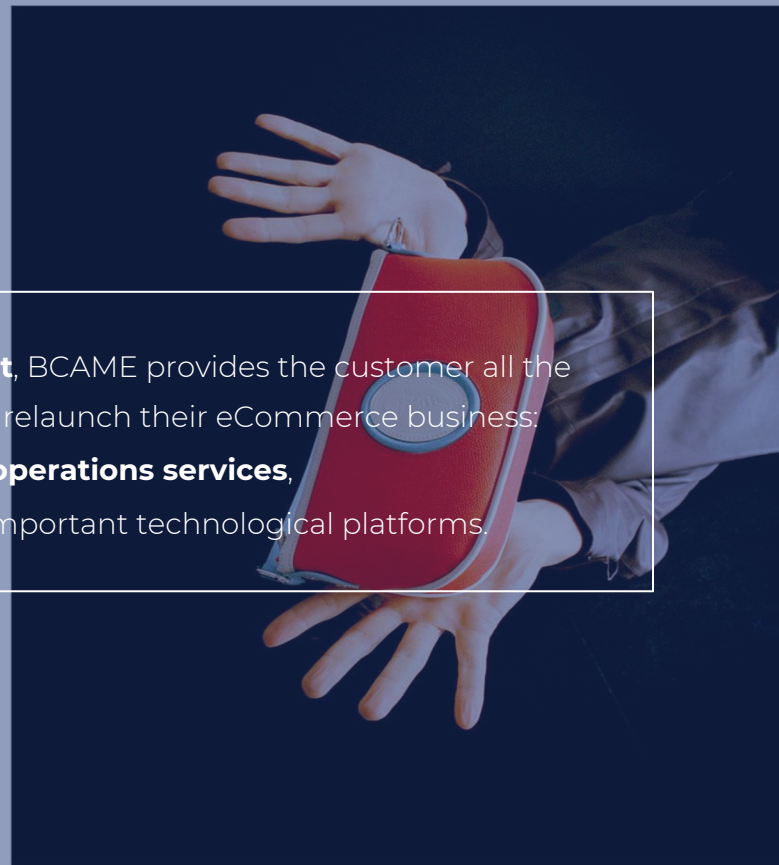

eCOMMERCE

With particular focus on the **Luxury & Retail market**, BCAME provides the customer all the fundamental components to start, consolidate or relaunch their eCommerce business:

from the store concept to the operations services,

passing through the integration of the most important technological platforms.

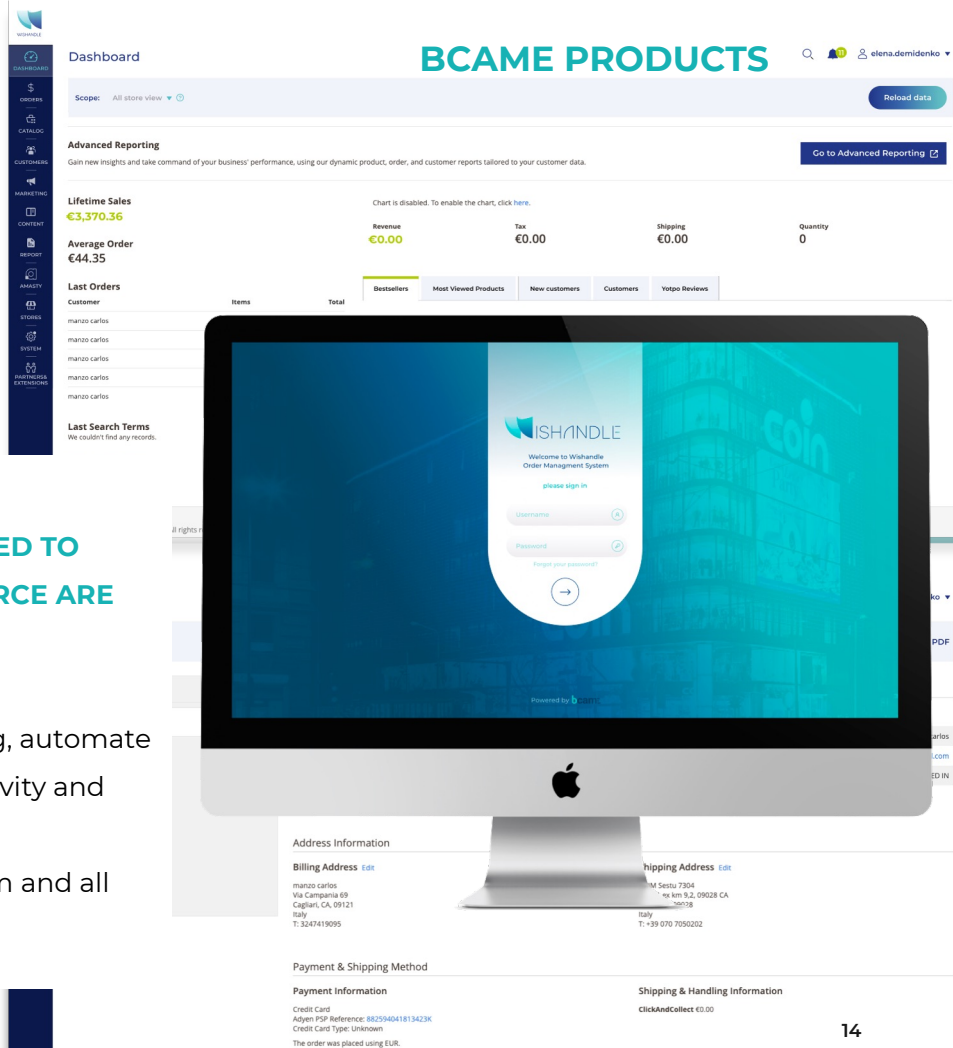

BCAME PRODUCTS

WISHANDLE IS AN ORDER MANAGEMENT SYSTEM, DEVELOPED TO MEET NEW MARKET NEEDS, IN WHICH STORE AND ECOMMERCE ARE INTEGRATED, COOPERATING TO IMPROVE THE BUSINESS PERFORMANCE.

The platform is able to accommodate order entry and processing, automate management processes, reduce lead time and increase productivity and profitability.

It integrates with any front-end sales channel or back-end system and all major WM Systems and payment gateways.

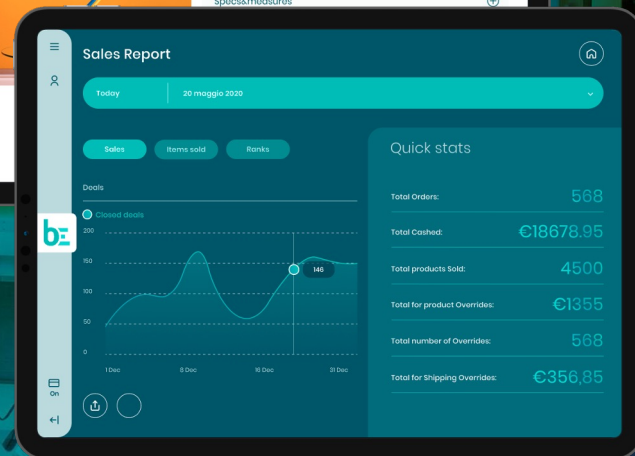

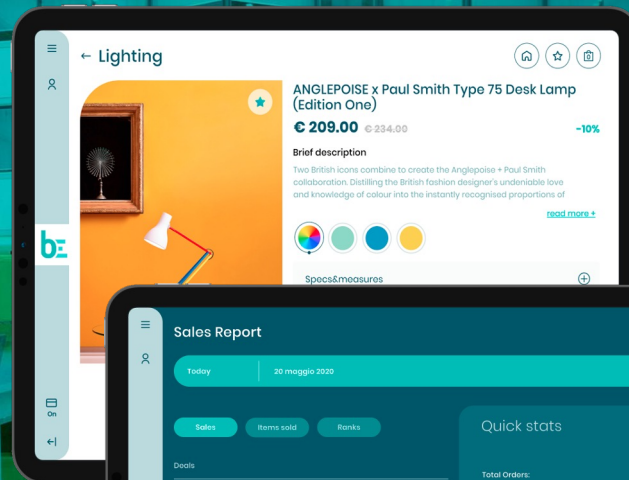

VIEWIDE IS A STORE APP, IN TABLET VERSION, THAT ALLOWS THE SALES RESOURCES IN STORE TO BE ABLE TO ACCESS IN REAL TIME TO THE ECOMMERCE STOCK.

This allows you to check the availability of the item desired by the customer, not available in the physical store, in order to finalize the purchase in the store with delivery or collection directly at the reference store.
