

The data you need, in one place

Leverage your DonorDrive fundraising data to better manage supporter relationships in Salesforce with DonorDrive's Nonprofit Success Pack (NPSP) App.

The DonorDrive for Salesforce integration allows you to leverage Salesforce as your system of record for all fundraising data. Integrating the industry's most innovative fundraising software with the power of the #1 CRM paves the way for bigger fundraising revenues and deeper relationships.

Get a complete view of your supporters

Having the right data is key to a successful fundraising program. Track all your supporter data in Salesforce — from relationships to engagement to giving history. Gain actionable insights into each supporter's value to your nonprofit and maximize your efforts.

- Sync constituents, donations, events, teams, participants, campaigns, and ticket holders.
- Easily add custom questions and customize field mappings between DonorDrive and Salesforce.
- Match on existing records, harnessing built-in Salesforce matching and duplicate management functionality.
- Customize your sync frequency — up to once an hour.

We were really looking for a CRM that could capture the immense data coming in through DonorDrive. The sync from DonorDrive to Salesforce allows us to use our data exactly how we need it. This easy process helps us build our network.

Capture your most valuable data

Sync standard fields, custom fields, and form questions directly into Salesforce, so your most valuable information is at your fingertips. DonorDrive stores your data to standard objects, maximizing your experience and the value of the Salesforce platform.

Enhance record matching

Keep your data clean by matching to existing records in Salesforce, reducing duplicates, and saving your team time and resources. With DonorDrive's bidirectional constituent sync, your data stays as up-to-date as possible across both systems.

Experience best-in-class integration and support

DonorDrive's NPSP app was built by certified Salesforce developers and backed by DonorDrive's top-rated customer support team. We cut out middleware, keeping your data secure with an integration that's easy to set up and maintain.
