

SALESFORCE TECHNICAL ASSISTANTS

Virtual Support When You Need It

WHO ARE WE?

A team of Military Spouses and Veterans dedicated to supporting your Salesforce needs virtually on a part-time basis.

We bring together the right people to support and drive digital transformation for your business. We dive deep to unlock insights and provide the skills to act without the burden of providing employment when it's more than what you need.

WHAT DO WE OFFER?

We specialize in helping Salesforce clients that are SMB's, small-mid size nonprofits, as well as other Salesforce Consultancies and ISV's

"The key is in not spending time, but in investing it." -- Stephen R. Covey.

WHAT'S OUR PROCESS?

One of our goals as a boutique consultancy is to offer individualized service to all of our clients. We do this through simple, clear processes and pricing. It's a bit different from what you will find at the larger consultancy's and their complex spreadsheet proposals, but we think we're onto something. Let us show you how we can increase your Salesforce ROI by spending more time getting work done and less time talking about it.

IS IT AFFORDABLE?

With simple pricing, we make it easy to start quickly and bring on additional help only when you need it most. We set our services at 5 hours per week (min) so even small organizations have the opportunity to bring on the help they need.
