What's included?

CUSTOMIZE OBJECTS

Customize Account, Contact, Lead, and Opportunity Objects to ensure you can easily collect the data you need to accurately track your pipeline.

MIGRATE YOUR DATA

Upload up to 200 records (contacts, accounts, or others) into Salesforce using pre-defined templates to reduce manual data entry.

REPORTS & DASHBOARDS

Get up to 12 reports & 2 executive level dashboards to gain visibility into critical data that allows you to make better business decisions right away.

SALESFORCE TRAINING

Get 1:1 time with your team to ensure you're comfortable using your new system, and receive a customized Trailmix to help you learn more.

The Cloudventures team gave us exactly what we needed to get started using Salesforce. They were helpful, knowledgeable, and always willing to go the extra mile.
