

Enterprise Plan

Power up your multi-level organization with an **all-inclusive plan** that includes premium support, curated data, and API integrations for your unique workflows — without the hidden fees.

- › Your HQ gains operational oversight and transparency
- › Local affiliates benefit from autonomy
- › Enjoy a tailored onboarding experience and prioritized support

API Integrations

Boardable's dynamic solutions simplify data sharing. Connect to your HQ management system, database, or your other tech partners. Our agnostic approach gives you flexibility and a seamless user experience for meetings and more.

Security

We partner with AWS for vigilant data monitoring that allows us to detect, reject, and protect against any form of cyberattacks. Rest easy knowing you can meet, collaborate, and share documents securely.

Knowledgeable Service & Support

We offer expert, premium support from people who've been there — whether it's your first time or you're replacing an outdated board management platform.
