

Oktana, a Salesforce Summit Consulting Partner, helps companies innovate through multi-cloud Salesforce digital transformations, integrating Salesforce seamlessly into day-to-day operations.

Why Oktana

Expertise. We can architect, build and connect any system to Salesforce. Founded in 2014, we have grown to the size we are today organically, through referrals based on the experience of our customers.

Collaboration. We are Agile, flexible, overlap with your timezone and we are culturally aligned. Our customers are repeat customers with an average partnership of 4+ years.

Growth. We continuously train to expand our knowledge of languages, frameworks and Salesforce technologies to enable your innovation. Our training team and internal incubator program prepare our team to scale.

Trust. We are SOC 2 certified and maintain a rigorous compliance program to ensure data security. We code and implement with Salesforce best practices in mind.

We can help implement:

- Sales Cloud
- Service Cloud
- Experience Cloud
- Einstein AI
- Tableau
- Pardot
- Customer 360 Platform
- Heroku
- MuleSoft
- Slack
- Commerce Cloud
- Marketing Cloud

Meet our customers:

"This is a fantastic partner. Knows not only Salesforce technologies, but also Heroku and MuleSoft (...) Their team is also excellent at modern front-end development. Oktana has a variety of levels - junior to architect - to fit your project's specific needs."

Customer Review, January 2022
Salesforce AppExchange
